This is the Jap we haven't yet tackled

JAPANESE ARMY DEFENDING JAPAN

GERMAN ARMY DEFENDING THE REICH IN THE WEST

He's big—The Jap now controls one of the largest empires in the world. He has 4,000,000 to 5,000,000 war-hardened soldiers—twice as many as the Germans had to defend the Reich in the West. He is entrenched in China, Korea, Manchuria and the homeland—we have yet to meet these major forces.

He's strong—For 20 years the Jap has feverishly worked to make Manchuria an immense war arsenal. Here, out of bombing range, he has huge war plants. He has ample resources—in many cases greater than ours. He can build ships, tanks, guns in great numbers. And thousands of swift planes.

35,000,000 WAR WORKERS

He's a hustler—The Jap war worker works like a beaver—he is 35,000,000 strong, working 12 to 16 hours a day, 7 days a week, taking only 2 days off per month. He isn't quitting. He isn't witting. He isn't easing up—he's hustling every muscle he's got—building ships, planes, guns to beat us.

He's hard to hit—Every punch at the Jap has to travel thousands of miles. It takes three times as long to carry men, guns and food to our rear bases in the Pacific as it did to our front lines in Europe. Three times as many ships for the same amount of material—and more men in our supply lines.

Says Lieutenant General Holland M. Smith, U. S. Marine Corps:

"The Japanese fighting man may sometimes fight foolishly but he always fights furiously, savagely, ruthlessly. Any nation that such a people will with morally, psychologically or economically is quite certainly wrong. Our battles with the Jap will go into Marine Corps history as the toughest of all our time. *Beating him will take the best we've got.*"
