

# New Phonograph Adds Much Enjoyment To The Library

"Something new has been added!" Readers who strolled into Baldwin public library on an evening last week were pleasantly surprised to hear music on the heretofore strictly literary air of that building.

The "something new" is a phonograph and radio combination provided to the public library by the Birmingham Musicale. "That organization," said Mrs. Herbert H. Gardner, retiring president, "felt that with a large collection of recordings already in the library, that some means of playing them occasionally should be provided." Then followed a series of teas, bridge parties and luncheons at which members of the Musicale contributed toward the fund for a phonograph. In three months there was enough to buy a machine.

Thus, when a member of Madison avenue, formerly of Madison avenue, offered one of her own machines, the Musicale bought it and presented it to the library.

The machine is a General Electric radio with an RCA phonograph attachment of pre-war make and in perfect condition. It will play from six to eight discs on the automatic type or may be operated manually.

Plans for the use of the phonograph are many and varied, according to Miss Adeline Cooke, librarian. It can be used for a regular series of "concerts," in connection with the children's story hour, and for special programs or occasions which call for music.

Until plans for programs to be played at definite times have matured, the phonograph will be played occasionally in the evenings.

The recordings now in the library are made up of the collection given by Mrs. Albert Kahn and one bought by the library a short time previously, with funds partially from the Birmingham Musicale. New ones are added from time to time. The records may be borrowed on a rental basis of two cents per day per record.

Group camp schedules, using conservatory department buildings and recreation areas, are filed for the 1945 season when approximately 1,000 Girl Scouts, 600 unprivileged children, and another 600 boys and girls sponsored by civic and religious organizations, will enjoy outings.

## Delegates to Boys' State Report Fine Nine-Day Program

Six Birmingham boys have just spent nine interesting and educational days at Wolverine Boys' State at Michigan State College.

They were Philip Martz, sponsored by the 112 Twelfth club; William Bones, by Rotary club; Ralph Dunbar, by Lions club; Gregory Peck, by Oakhill County Youtree 811, 40 St. 8; and Harry Wagner and Charles Murray, by the American Legion.

The boys left the American Legion home on Thursday, June 14, in the special "40 St. 8" 811 locomotive and arrived in Lansing about 9 in the morning. After registering at a rest camp, they were assigned to a city and county, as well as a political party. The object of Boys' State is to give youth actual practice in the running of all forms of government.

Birmingham's delegates made a good showing, all holding offices. Bill Bones, Van Buren City, was appointed by the governor as head of the public service commission; Charles Murray, Monroe City, elected deputy chief of police; Philip Martz, Johnson City, elected friend of the court for Bagley county; Harry Wagner, Johnson City, elected prosecuting attorney, Bagley county; Ralph Dunbar, Peck City, elected constable and Gregory Peck, Jefferson City, elected as a representative from Parson's county into state legislature and also chosen associate editor of the Whittier, a paper put out daily.

Ralph Dunbar was a member of the Band and Harry Wagner sang in the glee club. Monday and Tuesday nights were amateur nights, in which Gregory Peck and Harry Wagner participated.

## Did You Ever... SEE WAR BONDS FISHING?

This man in the boat is Bill Brown. In about five minutes he's going to land the biggest bass in the world... well, almost the biggest.

The time is 1945. And even Mr. Brown doesn't know just about the big one he's going to land. But Bill is working hard today... in 1945—saving money—and buying War Bonds and still more War Bonds.

After all, the Browns have only boys in the Army and he says, "It's almost enough that we do, but if the boys we know have War Bonds, the happy side of Mr. Brown's saving is that he's laying the ground work for a secure old age for his wife and himself. And according to Mr. Brown, "that means fishing."

1945 is a good year for saving money. Because of the war there is a shortage of purchasable material. Because of this shortage prices are higher and dollars can't buy as much as they probably will 10 years from now. Say, if you will plan your saving now—save frequent with pencil and paper—your spending later will be more profitable to you and your family, and the way to save now is to buy War Bonds.
