Private Recital

Materials are hard to get, but the pupils and teachers of the Allee LaBelle Studio haven't really tried because they just don't feel right about buying up yards of material just to use once and cast aside, with conditions as they are abroad.

Most of the leading schools in Detroit feel the same way about it, so we are just having a private affair with some serious last year's costumes. They find they can put much more time on really learning to dance. And some of the pupils are preparing to take their exams in ballet.
