 "Substance" will be the subject of the
 Lesson—Sermon in all Christian Science
 Churches throughout the world on Sun-
 day, March 19.
 Text (Psalm 119:89): "By
 Thy word, O Lord, Thy word is settled
 in Heaven."
 Among the Bible citations in this
 issue: Psalm 145: 19, 11, 193, "All
 Thy works praise Thee, O Lord; and Thy
 saints shall adore Thee. They shall speak
 of the glory of Thy kingdom, and talk
 of Thy power: Thy kingdom is an ever-
 lasting kingdom, and Thy dominion en-
 dures throughout all generations."
 Correlative passages to be read from
 the Christian Science textbook, "Science
 and Health with Key to the Scriptures,"
 by Mary Baker Eddy, include the follow-
 ing (250): "God is infinite, the only life,
 substance, Spirit, or Soul, the only in-
 telligence of the universe, including man."

DETROIT EDISON

Timely items of interest and value—helpful suggestions about cooking, lighting and appliance use.

FROZEN METALS—Heat has been used since ancient times in the hardening of metals; the cold treatment is new. Cold-treating at 120° below zero F. has a marked effect on the structure of metals which results in added durability and strength. It lengthens the life of grinding and cutting tools sometimes as much as 300 per cent. There are many other industrial applications of this new cold treatment for metals.

Wasting electricity is wasting badly needed coal

FOR ST. PATRICK'S DAY—A timely recipe from our Home Service Department:

Hamburger Shamrocks
 1 lb. hamburger 2 1/2 tsp. salt
 1 egg 1/4 tsp. poultry seasoning
 3/4 cup soft bread crumbs 1/4 tsp. pepper
 3 green peppers

Beat the egg, add crumbs, poultry seasoning, salt and pep-
 per. Add beef. Cut eight rings, 1/2-inch thick, from the green
 pepper. Put hamburger mixture into rings. Broil seven
 minutes on one side and six minutes on the other.

QUIET, PLEASE—The Farmer Street Office of The Detroit Edison Company is located in an Edison substation, crammed with three stories of massive machinery directly over the office. But despite the constant deafening roar from the machinery overhead, not a sound or quiver can be detected in the office. For the office is actually a "building within a building," completely isolated from the noise and vibration by a novel insulation of cork and sand, setting it off from the rest of the building.

Don't waste electricity during the coal shortage

KITCHEN CRAFT—When washing greasy dishes or roasting pans, add a few drops of ammonia to the water for faster, easier cleaning. If ammonia is not available, washing soda or borax is a satisfactory substitute.
