All Knowledge Is Not Learned Only In The Classroom

For a long time, much of the modern system of public education has been under adult criticism in the United States. In the universities and colleges many of its students have told me that they have taken the campus rules under which they are not just that they are respected and wanted to prepare themselves for adult working lives. They have expressed a deep disappointment about the system of education that society offers them; perhaps not so much as it relates directly to much of their studies, but rather to the lack of overall ethics and standards of practice that are evident in general campus life.
