HOW DOES CHRISTIAN SCIENCE HEAL!

THE disappearance of organic and functional disease, as well as of trouble in other forms, is continually recorded among those who have turned to Christian Science for help.

The method of such overcoming of difficulty is prayer—a spiritually scientific manner of thinking based on the teaching of Christ Jesus.

What this prayer is and how anyone can understand it and use it effectually in accordance with his need are fully explained in the Christian Science textbook,

SCIENCE and HEALTH with Key to the Scriptures by Mary Baker Eddy

Christian Science Lecture Attracts Many To Baldwin

Baldwin Auditorium held a large audience Monday evening for the lecture on "Christian Science, A Religion of Works," given by John S. Sammons, C. S., of Chicago, Ill.

A member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., Mr. Sammons' talk proved of unusual interest. He told of many instances of service men and women coming back from the war theatres with stories of remarkable cures by the application of Christian Science.

Based on Bible

He spoke in part as follows: "Christian Science is based upon the Bible, the King James Version, which is the translation accepted and used in all Protestant churches. Mary Baker Eddy, the discoverer and Founder of Christian Science, quotes from the Bible 651 times in the Christian Science textbook, 'Science and Health with Key to the Scriptures,' and in each instance with appropriate explanation and comment. She refers to the Bible as 'the chart of life' (p. 24).

"Mrs. Eddy has given us a concise definition of God on page 465 of the textbook. There she answers the question, 'What is God?' with the statement, 'God is incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love.' She then goes on to tell us that these are synonymous terms, and says that 'they refer to one absolute God.' These synonymous terms all being equal to the same thing are necessarily equal to each other; hence, Mind is characterized by the substance of Spirit and Spirit expresses the conscious intelligence of Mind. The activity that is Life is the verity which is Truth and Truth gives to Life the power of its changelessness. That which is true is true eternally, possessing inherently the capacity to retain its identity as Truth and successfully resist being anything else. Thus we have one God—infinite in His nature, universal in His being, changeless in His love. An understanding of God is fundamental to your understanding and demonstration of Christian Science.

"Jesus was the Way-shower. In order to be the Way-shower he had to go all the way. Christian Science accepts without reservation the completeness of his experience, including the immaculate conception, the resurrection and ascension, and all intermediate steps.

The Eternal Christ

"Jesus distinguished between his corporeality and the spiritual domination and power which he expressed. He said, 'Before Abraham was, I am' (John 8:58), therein voicing the timelessness of the true manifestation of God. Christian Science likewise makes the distinction between Jesus the man and Christ the divine idea.

"The Bible tells us that man is the image and likeness of God. Since man is the likeness of God, he is the likeness of Love, for God is Love. That is, man reflects, consciously manifests, the quality of God's love. Man is the likeness of Life, or God, deriving his life from that infinite Life, hence he consciously lives, reflecting and embodying the spiritual vigor, force, and vitality which characterize the divine Life. There is but one God, hence there is but one kind of man, whether individually or collectively expressed—the kind of man, therefore, which you and I in reality are and will forever remain. The man of God's creating is neither sinful nor sick; he is under no condemnation and is never afraid. This is the man referred to by Mrs. Eddy as 'Mind's infinite ideal' (Science and Health, p. 517).

"As these spiritual ideas are understood and demonstrated in human experience, mortals begin to lose their belief that life is in matter, and to experience the freedom from sin and sickness—which is salvation.

"Mrs. Eddy was a leader of thought, a spiritual seer, whose example finds no parallel in human history. In a Message to The Mother Church in 1901 Mrs. Eddy says (p. 34), 'Follow your leader only so far as she follows Christ'."

Christian Science Church Holds Annual Thanksgiving Service

As is customary in all Christian Science Churches, a special Thanksgiving service was held today in First Church of Christ, Scientist in Birmingham.

Following the usual order of service there was a brief period in which members of the congregation expressed their gratitude for healings and other help which they have received during the past year.

The Golden Text from I Thessalonians (5:16-18), was considered appropriate for the occasion and reads: "Rejoice evermore. Pray without ceasing. In every thing give thanks."

The Bible citations included: "It is a good thing to give thanks unto the Lord, and to sing praises unto thy name, O most High: For thou, Lord, hast made me glad through thy work: I will triumph in the works of thy hands" (Psalms 92:1,4).

Among citations from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, were the following: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more. Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech."

OPEN TANK SEASON

Although the intercollegiate tank season will not begin until mid-January, 20 picked candidates for the University of Detroit's first swimming team are working out daily under the direction of Coach Bill Brooks at the Boys Club of Detroit pool. Brooks hopes to develop a team capable of launching the new sport this year.
