White Winter Date Dress Popular Everywhere, Helps Buy Extra Bonds

First introduced a few years ago, the winter white dress continues to grow in popularity. One reason for this, of course, is the pleasant change from dark colors that are so much needed in winter. This young design is especially attractive with its deep-U neckline, shirred skirt and narrow gold kid belt. Similar patterns are available at local stores. It's Risky Business

WE are addressing chiefly those parents who think their children should decide for themselves when they should start to go to church school and where. Such parental reasoning, however sincere, actually risks the spiritual development of every boy and girl it affects.

These are dangerous times to risk the future of our youth. NOW, more than ever, we must start to go to church in the truths and character-building doctrine of the Christian message. Our Church School is staffed and equipped with curriculum and program needed to help parents fulfill their important responsibilities toward the religious training of their children. A visit to our Primary Department will show you why we mean. Come this Sunday at 10 o'clock. There's a class for every age. Morning Worship at 11. Nursery for the children.
