

It's Time Birmingham Started Those Christmas Packages To The Boys Overseas

County Girl Scout Leader In This City Each Monday A. M.

Mrs. Edward L. Ruslander, executive secretary of the Oakland County Girl Scout Committee, is in her office at the Birmingham Community House each Monday. Mrs. Ruslander may be seen there in person, or may be reached by telephoning Birmingham 240, to receive requests for training courses, program material, or any other Scout information desired.

Only 2 More Days Until Gift Mailing Program Is Opened

Thoughts in hundreds of Birmingham homes are this week turning to Christmas. For Christmas for the family members at home but Christmas for those men and women of those two thousand or more families who are away in service of their country—and especially Christmas for those who are still in foreign lands with little chance of returning home this year.

Michigan 4-H Farm Safety Club Members Study Accident Prevention Measures in City Plants

Participants in the 1945 National 4-H Safety Program (shown above) recently visited plants of an automobile manufacturing concern in Detroit to study safety measures taken to protect workers against injury. The 4-Hers were accompanied by Mrs. Ada Watson, county club agent.

State Parks Fail To Receive Heavy Late Season Crowd

The long-repressed urge to "go places" is keeping motorists on the move and state parks are not getting the crowds they expected after gasoline rationing ended.

Catholic Theatre To Present Four Plays

The main auditorium of the Detroit Institute of Arts will be the scene of all productions by The Catholic Theatre of Detroit during the 1945-1946 season.

Urges Early Mailing of Christmas Packages

Postmaster Byrne said that addressing them correctly is most important. He urged that mail be done early to avoid last-minute delays, and to insure timely arrival at the destination.

WELLA COLD WAVE

Quick—just about 30 minutes for the fastest to work. Lovely—a soft, natural looking wave. Cool—cool as a dip in the ocean.

IN ANSWER TO MANY REQUESTS FOR INFORMATION ABOUT THE

APPLE ORCHARD NURSERY SCHOOL

559 S. ADAMS ROAD BIRMINGHAM, MICH.

An exclusive school for discriminating parents of two and three year old boys and girls.

It is designed solely for purposes of education, with special emphasis on health, happiness, personal accomplishment and cooperation with others.

The equipment is chosen with care and is constantly increased to meet the needs of each individual child.

The hours of the school are from 9 in the morning to 4 in the afternoon. This gives the child 35 hours of experience and pleasure with a group of his or her own kind each week of the school year.

The personnel are chosen for their individual abilities and consists of a director who is a University of Michigan graduate nurse with college training, and special training at Columbia University and Whittier College, Broad Oaks School of Education. Also a teacher who is a graduate in Child Development at Connecticut College for Women. There are three special assistants who give attention to diet and to toilet training.

The playing and working together in an ideal nursery school makes for happy, healthy, satisfied little boys and girls.

Transportation is provided.

The tuition is paid quarterly.

School opens September 17th.

Phone 3191 or address Box 282, Birmingham.

It will save some effort, and possibly a return trip to the post office, if the special mailing address is known and followed.

The September 15-October 15 period for mailing is a MUST for all Army personnel, with one exception; that is, gifts sent to servicemen who have left their homes before or after October 15. Packages going to the China, Burma, India, Ceylon, the Middle East, the islands in the Pacific, stand a better chance of getting there on time if mailed by October 15.

Navy, Coast Guard and Marine Personnel may receive packages without a request for postage—but one is wise to send them no later than the 15th, if they wish them to get there on time, and you do.

Limit 5 Pounds

Christmas packages, or all branches of the services may not exceed five pounds in weight. They will not be accepted by the post office if over 15 inches long, or if length and girth, added together, exceed 35 inches.

All articles sent overseas must be in boxes of metal, wood, solid fiberboard or styrene, or in corrugated fiberboard. Styrene fiberboard boxes, approved by the W.P.B., and made for the purpose, may be purchased in wrappings departments.

The Them Up Wall

Workers at the Birmingham post office explain that your Christmas box should be securely tied with strong cord, preferably by four separate pieces, two lengthwise and two crosswise, and knotted at crossings.

Sealing the flaps with gummed tape is recommended, straps on the box. But tape alone should not be used since it will loosen if the box becomes wet. If the box is sealed inside it should bear the printed inscription authorizing opening for postal inspection.

In addition, all fiberboard boxes should be securely wrapped in heavy paper and tied as suggested.

Greeting stickers or labels re-embroidering postage stamps are permitted on the outside of the package, but holiday greetings may be written on the outside if they do not interfere with the address, or a greeting card may be put inside.

Pack Everything Solid

Contents must be packed tightly, so they don't shake loosely in the box. Fill every corner, top and bottom, with wadded paper, or small articles such as gum and razor blades.

Breakable objects must be well padded, and those containing liquid must be wrapped in a double layer.

RURAL boys and girls in Michigan are taking every opportunity to learn how to prevent accidents on farms. As one example, a group of Wayne county participants in the 1945 National 4-H Safety Program (shown above) recently visited plants of an automobile manufacturing concern in Detroit to study safety measures taken to protect workers against injury.

The 4-Hers were accompanied by Mrs. Ada Watson, county club agent.

To comply with the organization's safety regulations, the group was equipped with sunshades, eyeglasses, and provided with hair nets or other head covering. Safety measures throughout the plants were pointed out and the reason for their use explained to the 4-Hers.

The tour will be credited to each member of the program who achieves outstanding records in safety work this year. They will receive merit awards donated by General Motors. The awards are based on county, state, sectional and national levels.

latter articles, such as watches, eyeglasses, etc., must be mailed in sealed First Class packages weighing not more than eight ounces and must be specifically requested by the addressee.

Rickenbacker Coming For Aviation Week

Many Birmingham aviation enthusiasts and men interested in the aviation business are expected to spend considerable time in Detroit for the events of Michigan Aviation Week, Oct. 8 to 14, according to Carl Sedan, executive secretary of the Aero Club of Michigan.

Captain Eddie V. Rickenbacker, president of the Eastern Air Lines, will address a luncheon meeting at the Book Cadillac on Oct. 8, sponsored by the Economic Club of Detroit.

The opening day of Aviation Week will be dedicated to the air lines. Tuesday will be Personal Aircraft Day; Wednesday, Aviation Trades Day; Thursday, Army Air Forces Day, and Friday, Air Cargo Day.

Non-scheduled operators and feeder line operators will hold a meeting Wednesday, Oct. 10, at the Book Cadillac.

A Detroit International Aircraft Show will be held in conjunction with Aviation Week at the Book Cadillac Hotel Oct. 5-14.

THE DETROIT EDISON CO.

People come into our offices—and to department stores, hardware stores and other appliance dealers—with one question uppermost in their minds: "When can I get a new electric iron? Or an electric clock? Or a washer? I understand they're being made again. And I've seen them advertised in the magazines."

Here are the facts about the electric appliance situation. Manufacturers are resuming production of a limited number of appliances. Until they can reconvert their plants to full peacetime operation, the number built during the first few months will be small.

The demand will far exceed the supply. At least at first, what appliances are available will be spread so thin among the various appliance dealers that there will be very few on any one dealer's shelves. It may be a year before the supply is plentiful—perhaps longer. The first appliances released by manufacturers will go to department stores, hardware stores, home appliance shops, etc.—dealers whose very existence depends upon the sale of merchandise. The Detroit Edison Company—because it handles appliances only incidentally to its principal business of selling electric service—will be among the last to get them. Our policy has always been "See your dealer first." Until the dealers' shelves are stocked, we shall have very few electric appliances for sale.

Please remember that your dealer's supply will be short. He is anxious to sell you the appliances you want, but he can obtain no more than his limited allotment. We are equally anxious to have electric appliances once more available for all who want them. We hope the time may not be too far off.

Your dealer will be glad to give you helpful information about the particular appliance you want, and answer any questions you may have. When new electric appliances are again available, he will help you select the model to fit your needs.

The facts about the ELECTRIC APPLIANCE SITUATION
