The problems with poise and confidence of the pupil in developing a definite philosophy of life.

To aid the pupil in mastering such skills and bodies of information agent per possible to the problem of the problem of the problem of the property of the problems of the problems of the property of the problems of the problem

Detroit Edison Co. Warns Against Use Of Army Signal Kite

the sufety department of The De-troit Edison Company.

"Kites with metal in them or in the string are about to be offered for sale as surplus material from Army or Navy stocks, and are a want to warn the public," Mr. Douglas said. "If one of these kites touches an overhead electric wire or line it may immediately want to warn the public," Mr. Can be very dangerous. Even if the string has no metal in it, a lit-tle dampness will let the string carry current to the child on the garry current to the child on the filled or badly burned he instantly killed or badly burned he instantly will an any store owner concerned that this kite is unsuitable and very dangerous for public use, for signal sowick over the ocean and will be too heavy for ordinary use in addition to being danger-ous." Douglas said. He asked that if any of them are offered for sale in this area, so that the merchants

The kite, is designed, we believe, for signal work over the ocean and will be too heavy for ordinary use in addition to being dangerous." Douglas said. He asked that the Edison Company be advised if any of them are offered for sale in this area, so that the merchants may be warned of their harmful possibilities.

Safety rules for kite filers are:
Always use cotton or linen string,
