### Dondero Declares He Is Candidate For Reelection

Rep. George A. Dondero, who has represented the 17th Michigan District since its creation in 1932, has announced that he will again

be a candidate for reelection on the Republican ticket. In the present Congress he is the ranking Republican member of the Committee on Rivers and Harbors and the Committee on Education and will become chairman of one of these important committees in the event of Representatives for the metropolitan U. S. House of Representatives.

Throughout most of 14 years, Congressman Dondero has been the only Republican in the U. S. House of Representatives for the metropolitan area of Detroit and, despite the fact that his party has been in the minority during his entire service, has been able to accomplish much of substantial value to the people of the 17th district and the nation.

**Wars on Communists**  
Congressman Dondero has consistently stood for sound American principles within the framework of the Constitution and his crusade against Communists and fellow-travelers in high government places and Communist subversive activities, he has been the frequent target of Communist front organizations. In view of his recent success in exposing and sabotaging work in the United States, it is very probable that radical elements will do everything within their power to malign his record.

During the present session of Congress, he has been instrumental in launching an inquiry into the circumstances surrounding the disposition of espionage charges against six persons, three of them in high government positions, involved in the stealing of highly secret military documents from various government departments.

Congressman Dondero believes that every honorable effort should be made to maintain friendly relations with Russia, but he points out that American Communists are very effectively sabotaging diplomatic relations through their subversive acts calculated to enhance the position of Soviet Russia and undermine our own country. The peace of the world, Rep. Dondero contends, demands that the United States take immediate and drastic steps to punish all American Communists and fellow-travelers guilty of subversive acts that serve to foster suspicion among nations.

Do You Want a Government Bureau to Decide What Medical Care You Need When You Are Sick?

**UNDER** a so-called National Health Act of 1945 introduced in Congress by Senators Wagner, Murray and Representative Dingell, proposal is made to take away your right to select, without hindrance, the doctor you want to treat you. Instead, the Act offers the services of whatever government doctor isn't busy—and makes you pay for his advice by taking a new 3% from your paycheck. If you don't use the government doctor you still have to pay at least 3% of your wages for his support and for the cost of administering the plan.

**THE TOTAL YEARLY COST OF THIS WAGNER-MURRAY-DINGELL BILL IS ESTIMATED AT \$4,000,000,000.**  
Right now, without any four thousand million dollar Act, your family doctor is available 24 hours a day to treat you. He is well trained . . . He knows you personally. And, if you don't like what he prescribes, you can get a different doctor! If you want to continue to choose your own doctor without red tape . . . If you want the best health care that medical science and personal service can give you—urge your Congressman to vote against the Wagner-Murray-Dingell Bill.
