Michigan History in Pictures

Charlevoix, at Mackinac in 1721, shows St. Ignace as the church name there.

Fr. Pierre-Francois Xavier de Charlevoix had come up from Detroit.

VILLAGES DES HURONS
From Mackinac 1660 to the Lake 1675-2.

Fr. Charlevoix's report to the French government won earnest attention.

With only 6 per cent of the world's land surface and 6 1/2 per cent of its population, we possess, in proportion to the rest of the world, 80 per cent of the motor vehicles and tires.

Once in 850,000 Times

Quadruplet calves, born May 27 at the Irondale, O., farm of W. H. Iddings, left, with a combined weight of 143 1/2 pounds, were a healthy 300 pounds a month later despite the fact that experts say quads occur only once in 850,000 bovine births. The Herefords, three heifers and a bull, are known as the Buckeye Arcady Quads. Mr. Iddings' father, Henry, is at right.

HOW'LL YOU HAVE YOUR EGGS?

This weather-beaten trouble-shooter isn't worrying about your eggs—or whether you want 'em soft boiled, fried, scrambled—or if you like eggs at all.

But he is worrying about keeping your electric service flowing along as usual. If that means eggs for your breakfast, okay then, that's why he's up on a storm-lashed power pole.

And, he'll stay there till he gets your line repaired—in spite of rain . . . lightning . . . thunder . . . and a high wind howling.

You don't have to send him a check for his trouble. You won't pay any more on your electric bill—to cover his hard, wet work and the materials he uses. Chances are you'll never even know a line went out.

Fortunately we don't have storms every day, but when we do, Detroit Edison line crews are ready—day or night.
