Elementary School Court League Now In Three-Way Tie

By BILL BONES
An improved Quartan quintet
ran up a 17-14 victory over Adams
with cover a scrappy Holy Name
team, 9-8, in the local elementary
school basketball league.

Quartan's center, Ken Wilson,
showed skill as he raked up 14
of the victory's points, Dick Young
providing for four more with
Stewart Schaefer collecting two.

Quartan's team has shown great
improvement over its early season
showing when they scored almost
at will.

Pierce came from behind in the
waning minutes to stay in the
game.

666 USE Cold Preparations

LIQUID, TABLETS, SALVE, MOUNTAIN
DRUGS, CAUTION, USE ONLY AS
DIRECTED

These victories put the elementary
basketball race into a three-
way tie for first place. Adams,
Quartan and Pierce have each
won four and lost three. Two
more games remain for each team
in this down-to-the-wire race.

CHRISTIAN SCIENCE COMFORTS
The textbook of Christian Science, "Science and Health
with Key to the Scriptures" by Mary Baker Eddy, tells how
the "Comforter" operates today.

Victory Gardening Is Switched Over To Peace Time and Now Has New Name

Despite snow, ice and cold weather hundreds of Birmingham Victory Gardeners are already thinking of their peace-time gardens of next spring and summer. Some have been wondering what is to happen to the Victory Garden plan and undertaking that the answer to this came this week with the announcement that name National Victory Garden Institute had been changed to the National Garden Institute, and that plans now started called for continued stress on the importance of gardening by the individual home owner.

Numerous new activities will be added to the list of ones successful during the war.

Among the activities which the Institute will continue is the National Green Thumb contest. Its scope, however, will be broadened and it will not be restricted to food gardening. It was decided that the Institute continue and strengthen its educational garden service to companies which have garden programs for their employees.

Enlarge Services
At this time when housing is so vitally needed, the Institute plans to enlarge its service and aid the small home owner in making his home grounds more beautiful, more livable and more productive.

The Institute will initiate an active program to encourage gardening through the public schools and youth agencies. Education and research in gardening will also be encouraged. The Institute will cooperate wherever possible in the encouragement of gardening for returned veterans and for therapeutic treatments in veterans' hospitals.

In spite of official assurances that there will be an abundance of food in 1946, many gardeners are planning to play safe by growing their own fruits and vegetables, according to Andrew S. Wing, secretary-manager of the Institute.

Last Advantages
Some of the reasons advanced for this are that home-grown vegetables have more taste appeal; food grown at home costs less; trimmings the grocery bill and helps hold down inflation; garden-fresh fruits and vegetables are superior for freezing or canning. A strong feeling also persists that while millions in Europe starve

are cordially invited to attend one of these meetings. The first meeting will be held on Friday evening, 7:45 p. m.—On week-day. Prayer services will be held at the Church. Men and women in the Service will be recommended to pray by name.

ELECTRICITY TO COST YOU LESS

TO OUR CUSTOMERS:

With the new \$3,000,000 rate reduction which is now effective, Detroit Edison customers start out 1946 with electricity at still lower prices. While almost everything else is going up, Edison prices are coming down. Your electric rates here compare very favorably with those of other large cities and this new \$3,000,000 rate reduction is among the largest made by this or any other electric company in recent years.

So—electric rates are low and we believe customers feel service quality is especially high. Our customers who come to this area from other communities realize there can be no fair comparison of rates without considering the quantity and quality of extra service included in the regular charges. Detroit Edison is recognized in the utility field as giving service that is unequalled elsewhere. It is one of only six companies in cities of 50,000 or more people which replaces customer lamp bulbs without added charge.

Detroit Edison provides fuse replacements, exchanges appliance cords and repairs some appliances free—in the sense that it is included as a part of our electric service without extra charge. Fair comparisons cannot be made without recognizing that this area pays the highest wages in the United States; that the company must buy its coal—almost three million tons of it a year—at a price considerably more than that paid in many other large cities, some of which are much closer to the mines.

Our customers have had plenty of electricity in war time and we are adding another 100,000 horsepower for peace-time growth. There is an ample and cheap power supply through this whole part of Michigan which we serve.

We are glad these lower prices can be put into effect now because U. S. Department of Labor statistics show that, compared to 1935-1939 prices, the cost of living in the Detroit area has increased 31%.

Detroit Edison electricity is down 7 percent
This reduction is made possible by decreased Federal taxes, our increased efficiencies and the expected greater use of electricity.

Prentiss M. Brown
Chairman of the Board

THE DETROIT EDISON COMPANY
