

Dr. Frank Slutz Urges that Birmingham Broaden Its Adult Education Program

At a delightfully informal meeting with Dr. Frank Slutz, Adult Education Institute executive board and executive committee members, member organization representatives and interested citizens gathered at the Ranch Room in the Community House for a bit of lunch at the snack bar and conversation about the future of adult education in Birmingham.

Dr. Slutz was enthusiastic about the Teen Center room which this meeting gave him the chance to inspect.

Suggest Local Poll
It was this editor's suggestion that the Community Council conduct a Gallup-type poll in Birmingham to find out the commu-

nity's attitude toward an adult education program, if it is wanted, and if so, what type is desired.

Another suggestion was that the Council co-ordinate present local adult education facilities.

Recreation Needed
Discussion growing out of the meeting indicated that many of those present felt the need locally for recreational facilities such as games, hobbies and handicrafts now as inadequate, especially for young business people.

The need for classes in marital relations for the young married couples of Birmingham was also discussed at length.

GIRL SCOUTS

TRAINING CLASS
The Girl Scout leaders training class, conducted by Mrs. George Finch and Mrs. Edward Kasander, for the new scout leaders were held January 10th and 11th in the Scout Room at the Community House.

Besides giving definite points to aid new leaders in carrying out the Girl Scout policies, many new ideas were interchanged.

Board members were introduced and each member outlined her duties. This served to give the new leaders a better overall picture of the organization.

Wing Scouts
The Wing Scout Troop planned a trip to the Pontiac Airport, recently, and weather permitting the group will be able to see the actual workings of an airport.

The group meets at the Community House, supervised by Mr. and Mrs. Jack D. Fuller and Mr. and Mrs. Robert Bruce.

FASHIONS FOR MOTHERS-TO-BE

Fresh and pretty to wear around the house, a maternity dress (above) in tan and white rayon tulle with a sash from each side to the back over a snap-adjusted waistline. Right, a smart, all-occasion maternity dress in pale blue shantung striped with navy. The waistline is elasticized on each side.

ONCE she admits that she will look larger, as today's mother-to-be frankly does, she can dress as becomingly and as smartly as any other woman. She needn't—nor her grandmother may have had to—buy her dresses several sizes too large, or resign herself to wearing dark colors for day and a Mother Hubbard around the house.

A look at the fashion New York designers have styled for maternity wear shows just how youthfully and ingeniously this season's soft underarm sleeves, drawstring waistlines, softly gathered skirts, surplice bodices and wraparound skirts have been adapted to maternity requirements. About the only difference in these and other clothes is a waistline that is adjusted with snaps, such ties or elastic.

The basic maternity dress in black, navy or brown is, of course,
