A Yale professor predicts a record-breaking industrial boom beginning about five years from now. He's certainly giving General Motors, the UAW, and the President's Fact-Finding Board plenty of time.

* * *

Probable accomplishments of the President's Fact-Finding Board are less than encouraging. The Fact-Finders likely will find facts that make some sort of compromise logical, and both General Motors and the Auto Workers will reject the whole thing as not taking the facts into consideration.

They say there is something good in everything. But did you ever hear of a cold being anything but a bad cold?

Six hundred U. S. observers have been invited to watch elections in Greece, the nation which held what were probably civilization's first truly democratic elections more than 2000 years ago. If we do not have a care about those observers, the Greeks will pick up tricks Pericles never dreamed of.
