Birmingham Gun Club Hosts to State Meet for Third Consecutive Year

This gathering of shooters tomorrow, Saturday and Sunday from all parts of Michigan as well as neighboring states marks the 30th anniversary of the Birmingham club, Louis Hassall, president of the local club, said.

Hut Contract To Be Signed By Mallender

Mayor Milton Mallender sometime today will sign the first two parts of the contract between the City of Birmingham and the Federal Public Housing Authority.

Atom Blast From 10 Miles Away

Here is the atomic cloud a few minutes after the blast at Bikini, according to a picture taken from the sky by the crew of the USS Mt. McKinley, 10 miles from target area.

This part of the world has had some hot days of late. Can you get cooler by recalling the cold waves of last winter? Or, if you're feeling your imagination into the cold days due next winter? Mother Nature, like every other woman, can't seem to please everybody all the time.

Lifting of the OPA last week resulted in a flurry of some prices, but then began the drift downward. A certain commodity was pushed into the market. Some leaders say prices will adjust themselves in keeping with the law of supply and demand, and that removing the OPA will encourage the production of many new articles. If human nature has not changed, that ought to be the case.

Not Final Till Management Plan Is Signed By City

Mayor Milton Mallender sometime today will sign the first two parts of the contract between the City of Birmingham and the Federal Public Housing Authority.

City and Merchants Would Both Share in Costs of Project

A proposed \$1,000,000 off-street parking program to provide ample parking facilities for the downtown Birmingham business section for the next 20 years was outlined to a group of 22 Birmingham Woodward and Maple avenue property owners by Charles S. Rust, of the City Plan Commission at a meeting Tuesday evening in the Municipal Building.

The law of supply and demand, which is part and parcel of the free enterprise system, is the only system that will keep prices down; for it is then that real competition comes into existence. Under competition for sales in industries that are not monopolized does produce the best results at the lowest possible cost. But there is one item today that, I think, does not fit into the law of supply and demand, and that is the cost of living. For some time to come new houses will not be built fast enough to meet the demand, and so many landlords will boost rents. People can forego or cut down on all unnecessary expenses, but the government ought to protect the right of people to obtain rented shelter in keeping with their fair incomes.

For the third consecutive year, the Birmingham Gun Club will be host July 12-14 for the 1946 Michigan State Shoot, annual meet sponsored by the Michigan State Trapshooters Association. This gathering of shooters tomorrow, Saturday and Sunday from all parts of Michigan as well as neighboring states marks the 30th anniversary of the Birmingham club, Louis Hassall, president of the local club, said.

City and Merchants Would Both Share in Costs of Project

A proposed \$1,000,000 off-street parking program to provide ample parking facilities for the downtown Birmingham business section for the next 20 years was outlined to a group of 22 Birmingham Woodward and Maple avenue property owners by Charles S. Rust, of the City Plan Commission at a meeting Tuesday evening in the Municipal Building.

If the U.S.A. was ever in a constitutional predicament, it is right now. President Truman must have some old-fashioned common sense, even if he would allow this quality to regulate his thinking and his decisions with honor. Wonder why for the nation than by allowing "politicians" to tell him what to do.

Lathrup Residents Vote Down Change in School District

The proposal to change the organization of the School District No. 11, Southfield Township, from the present primary set-up to a secondary set-up was voted down by a vote of 86 to 42 at the district meeting held Monday night at Annie Lathrup School.

The Beekseepers of America have selected a comedy young man to be their 46th king. He never even knew that he was a Beekseeper of America, though we've all known that he goes down with honey. Wonder why for the nation than by allowing "politicians" to tell him what to do.
