

Obituary

Mrs. Carolyn P. Harris
Mrs. Carolyn P. Harris, 947 Henrietta street, died Friday, June 21, after a long illness. She was born in Ontario Jan. 14, 1881, and attended Detroit public schools. After her graduation from Wayne University, Mrs. Harris taught in the O. W. Holmes and Grayling schools in Detroit.
She is survived by her father, Ernest Petry; two sisters, Mrs. Lillian Drostet, of Birmingham, and Harriet Petry of Detroit.
Services were held at the Bell

Funeral Home at 530 on Saturday with burial at Evergreen cemetery.
Stanley Bray
Stanley Bray, 956 Forest street, died suddenly in Detroit Wednesday, June 19. He was born in Birmingham Feb. 28, 1900 and attended Baldwin High School. He was a veteran of World War I and worked as an automobile mechanic. He is survived by a brother, Warren E., and a sister, Mrs. W. D. Ross, both of Birmingham.
Funeral services were held Saturday at 2 p. m. at the Bell Funeral Home with the Rev. Arnold Runkel reading the service. Burial was at the Greenwood cemetery.

Walled Lake Park Holiday Plans Set

Walled Lake Amusement Park has planned a big Fourth of July program which includes a huge specially-designed fireworks display on Wednesday and Thursday evenings, July 3 and 4, according to Fred W. Pearce, general manager.
Another special feature will be an Army "duck" water-going cargo vehicle, which will operate in conjunction with the park's speed boats. All amusements and rides will be in full operation for holiday fun seekers, Mr. Pearce said.

Voters League In Favor Of Baruch Atom Control Plan

In connection with domestic legislation for the control of atomic energy, members of the League of Women Voters of Birmingham are being urged to support the Congressional Representative George A. Dondero's House bill which would give the Atomic Energy Commission authority to amend the military-control amendments being proposed by the House Military Affairs committee to the Senate Bill 1717 (the McMahon Bill) and to vote for the McMahon Bill as it passed the Senate unanimously and the form which received the approval of the President, the Secretary of War, and an overwhelming number of citizen groups, including the League. The House bill is due to be reported out of committee and on to the floor at any time.
According to Mrs. H. M. Foley, international relations chairman, the League's objections to the House committee's amendments which now put the bill beyond the original May-Johnson bill in the degree of influence which it gives to the military, are based on the fact that one amendment provides that one member of the five-man commission must be a representative of the armed forces; another makes it permissible for a second military man to be a member of the commission; a third provides that the director of the department of military application under the commission must be a member of the armed forces; still another permits the president to by-pass the Commission completely in order to authorize the military services to manufacture, produce or acquire any equipment or device using fissionable materials or atomic energy as a military weapon.

Oakland County RED CROSS NEWS

According to Mrs. Sheldon Noble, chairman of home service of the Oakland County Chapter, American Red Cross, the local chapter is ready to assist veterans with their claims as well as any other problem which may arise. "It is impossible to emphasize too strongly the importance of each veteran filing a disability claim if he came out of service with any condition which was incurred in or aggravated by service during the war," she said.
While a monetary award may not be forthcoming at the present time, it is most important to establish service-connected disabilities now while records are still fresh and problem which may arise are not affected too seriously by a disability now but chapter experience shows that in later years the disability may become worse.
If service connection has been established, an ex-serviceman will be more immediately eligible for benefits from the Veterans Administration. It is suggested by Red Cross that each veteran have a

complete physical examination by a civilian physician some time within a year after date of discharge.
There are many disabilities which are considered service-connected if they appear within a year after separation from service.
Veterans who wish questions answered may call either of the two chapter home service offices. One office is located at 410 Pontiac State Bldg., Tel. 4-3575; the other, which serves Southern Oakland County, at 321 W. Sixth, Royal Oak, Tel. Lincoln 2-6700.
The home service committee which meets once a month and assists Mrs. Noble with the program of the local chapter consists of Mrs. T. W. Ennis, vice-chairman, Dr. John S. Lambie, Birmingham, C. G. Rudderham, Mrs. Harry Hoey, Bloomfield Hills; Mrs. E. P. Turner, Mrs. Frances Malley, Kenneth MacQueen, Southfield; H. Russel Holland and Mrs. Claire Gunkler, Pontiac.

They may have an opportunity to complete tests before the program closes.
Adults who wish to swim may also enroll in the classes. An opportunity will be given to complete the beginners' swimmers, intermediate and advanced swimming tests. Junior and senior life saving will also be taught.
Red Cross certificates will be awarded those who satisfactorily complete any of the tests. Instructors will instruct classes at: Walled Lake subdivision, Thursday, at 3:30 p. m.

Looking Ahead
"Why do you want to go to be a barber?" asked the kid's mother.
"Oh," replied the groceryman's son, "I want a business where you don't have to take orders over the telephone or wait six weeks for your money."
Merely
Public opinion is merely what people think other people are thinking.—London Answers.
Pre-War
A restaurant may be said to have returned to pre-war standards when its waiters are happy to eat there.—Boston Globe.

"Furthermore, by passing a bill so radically different from the Senate version which passed unanimously, the House would make a conference necessary before there could be final legislation. This might mean, in turn, that no atomic energy legislation would be passed before Congress adjourns for the summer.
"The League feels that it is of the utmost importance that the United States should back up the excellent policy for international control of atomic energy which was proposed to the United Nations by Mr. Baruch on June 14 by removing its own atomic energy plant from military control at once."
Camouflage
"Gracious me," cried grandmother, visiting at her daughter's home, "what station have you on now?"
"Oh," replied the little grandson, "that's what Dad tunes in when he doesn't want to hear the doorbell or the telephone."
Atom Bomber
Maj. Woodrow Swannett, 30, Wisconsin Rapids, Wis., leads the Superfort crew picked to drop the atom bomb at Bikini.
Strictly Fresh
AN Ohio girl who raises prize-winning calves was elected president of a 4-H Club in which made it the only girl member. Nothing like fine calves to make a favorable impression on a group of boys.
Byrnes claims Molotov was stubborn at Paris, and Molotov claims Byrnes was. It's just another case of tug of war.
Nobody should beef about the fact that OPA raised retail prices of watches and clocks 35 per cent. We've all been hollerin' about how much our time is worth.
In a way, higher prices have made it easier to keep up with the Joneses. At least Jones can't call your new suit cheap.
Reports that the government is buying about half the butter at big city markets only go to show that as usual Americans are the last to learn about their country's foreign policy. Europeans have known for decades how big the Atlantic their bread is buttered on.
