Neff Makes Recordings On New Machine For Use Of Conservation Department's Radio Programs Intended To Assist Sportsman

Mortimer A. Neff, 2252 Yorkshire, known as the Michigan Conservation department's "sportsman's guide," has recently been in the upper peninsula recording interviews with iron millers working far beneath the surface of the ground, with lumberjacks in the woods, with herring fishermen on Whitefish bay, for use by the department's radio programs. He had with him the new wire-recorder which he demonstrated a few weeks ago to the Birmingham Lions club.

He interviewed Soo rapids fishermen, lumber mill operators, a college professor who told the story of Michigan copper, and ski jumpers at Ishpeming's winter sports carnival.

Accompanied by Robert C. McLaughlin of the department's education division, Neff attended meetings of chambers of commerce and sportsmen's organizations.

The series of broadcast transcriptions will tell the peninsula's story—past, present, and future. Lumberman Harold Earle of Hermansville will discuss the future of the wood industry above the Straits, and the probable increased emphasis on more complete utilization of a tree in molded and pressed wood products.

Operations of Calumet and Hecla's reclamation plant at Tamarack will be described. The wire-recorder was taken underground in the Alpha iron mine near Ironwood.

Conservation department broadcasts are heard weekly over 19 Michigan stations.

New Recreation Areas

New recreation areas near Birmingham are to be opened to the public this year.

The conservation department has awarded a contract to Louis Garavaglia & &Son, Detroit, for a portion of an entrance road and earthfill that will open up a picnic area on the former Joe Louis Spring Hill farm over near Utica.

A contract has been awarded J. T. Poupare of Detroit for grading approximately 100,000 cubic yards of earth in construction of a 1,600-foot bathing beach on Pontiac lake, 12 miles west of Birmingham.

Teach Use of Rifle

Education of Michigan youth in proper handling of firearms apparently is paying dividends. Gun accidents caused by youths of 17 or under were 6.1 per cent less during 1945 hunting seasons than in 1944. Youths in the above age bracket caused 67 of 193 gun accidents during 1945 small game and deer seasons, a percentage of 34.7. Eighty of 196 gun accidents during 1944 seasons were caused by youths of comparable ages, a percentage of 40.8. The Birmingham Rifle Club has been active in this work for some time, giving instruction in both rifle and pistol uses.

CITY OF BIRMINGHAM
MICHIGAN
NOTICE TO PROPERTY OWNERS
ALLEY IMPROVEMENT—GEORGE TO LANDON STREET

The City Commission of the City of Birmingham will meet Monday, March 25th, 1946, at 8 P.M. in the Commission Room in the Municipal Building to consider any objections to the construction of a certain improvement on the alley extending from George Street to Landon Street in the block bounded by Ann and Woodward and to the creation of a special assessment district created to defray the cost of installation of pavement and necessary drainage structures in said alley.

The Commission proposes to create a special assessment district to defray the cost of this construction and said special assessment district shall consist of the following described property:

Lots 1 to 20, inclusive, of Buell's Addition.

Plans and estimate of cost of this project are filed with the City Clerk of the City of Birmingham for examination by the public.

IRENE E. HANLEY,
City Clerk

Heilman's Baseball Extra Opened Over Michigan Network

Harry Heilmann, former Detroit Tiger star and now baseball expert for WXYZ and the Michigan Radio Network, is bringing Michigan fans the latest developments and hits of play-by-play action from the Tigers' training camp at Lakeland, Fla., in his "Baseball Extra" program which started recently.

This year this pre-season program will utilize a new wire recorder to carry Heilman's broadcasts to Detroit where they will be heard every Monday, Wednesday and Friday. The program will be broadcast through April 15 and is being sponsored by the Goebel Brewing company.

In addition to some play-by-play description, the program will include unusual on-the-spot developments and comments by Heilman on the players and the progress of training. There will be a total of 19 programs. Interest is exceptionally high in training camp activities this year because the Tigers won the pennant and World Series in 1945.

Heilman will remain at the Tigers' training quarters until they return for the opening of the baseball season, at which time he will return to Detroit to resume broadcast of the games at Briggs Stadium.

Child Guidance Is To Be Studied By Parents At Barnum

The Barnum Junior High School P.T.A. will meet Thursday, March 21st at 8 o'clock in the school auditorium. Miss Gladys Rogers, teacher vice-president, will preside. New business will include the election of officers for the coming year.

The program will center around the general topic of "Guidance méditate Future." Dr. Dwight H. and Planning for Your Child's Im-Ireland, superintendent of the Birmingham schools will be the speaker.

A movie film "Finding Your Life Work" will be shown. The importance of the svchool's role in helping youth to find its life work is stressed. There will be three group meetings following the showing of the film.

The parents of present ninth grade students wil lmeet with Mrs. Carol Darling and Larned Goodrich, Baldwin High School counselors. The parents of eighth grade students will meet with Miss Muriel Brusie and Malcolm Tindall, Barnum counselors. The parents of the present seventh grade students will meet with Miles W. Robinson, Barnum principal and the teachers of elective subject matter fields, Merlyan Smiley in shop, Mrs. Lorraine Schuessler in homemaking and Miss Annne MacMichael in general language.

Officers of the association state that it is hoped that through the meetings the parents will get a better insight into the schedulin possibilities for their children.

Burden Bearing Animal

"What is a common carrier," asked the professor.

"Must be man," said the sweet co-ed. "First, he carries her toys around. Then her books, then her wraps, then her children, her groceries and her baggage and bunches. Finally, her grandchildren."

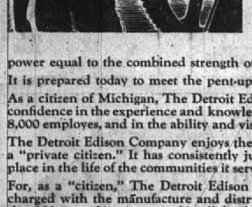
POWER and LIGHT
STRENGTH and VISION



For 43 years The Detroit Edison Company has loaded the life lines and the light lines of the communities it serves. Promptly and efficiently it has met the ever-growing demands and desires for the necessities and niceties of modern living.

The Detroit Edison Company has provided, and will provide, POWER and LIGHT, STRENGTH and VISION.

It has brought electricity to hundreds of thousands of families at a steadily decreasing price.

It has produced energy for the growing factories that have won an industrial empire for southeastern Michigan.

It met the challenge of war by pouring each day into the mammoth plants of the Arsenal of Democracy constant, unfaltering power equal to the combined strength of more than *forty million men.*

It is prepared today to meet the pent-up demands of peace and progress.

As a citizen of Michigan, The Detroit Edison Company looks now toward the future with confidence in the experience and knowledge of its engineers, in the energy and loyalty of its 8,000 employes, and in the ability and vision of its management.

The Detroit Edison Company enjoys the opportunities and obligations of citizenship. It is a "private citizen." It has consistently justified that citizenship, and the Company's vital place in the life of the communities it serves, by contributing its utmost to their upbuilding.

For, as a "citizen," The Detroit Edison Company does not regard its obligations as discharged with the manufacture and distribution of light, heat and power. This Company should be—and is—interested in all the things that affect the welfare of the 800,000 Michigan families which it serves.

It must be and IS interested in the broad sweep of all the things that are Michigan.

THE DETROIT EDISON COMPANY

What the TELEPHONE WAGE SETTLEMENT Means...

... TO THE PUBLIC

Recognizing their responsibility for maintaining a vital public service, both union and management representatives made concessions that averted a telephone strike recently. • Settlement means that the welfare and security of the public were not imperiled by a general curtailment of telephone service; that business and industry were not handicapped by a lack of communications in their efforts to regain full stride.

... TO THE EMPLOYEES

The settlement provides basic wage increases of $5 to $8 a week for non-supervisory male employees and $5 to $7 for non-supervisory female employees.

The increases boost Michigan Bell's hourly basic wage rates an average of 18%, or 17 cents an hour. • This is in line with the national pattern of recent wage increases in other industries, and is subject to governmental approval under the national wage stabilization program.

... TO THE COMPANY

These new wage adjustments, together with those granted recently to supervisory employees, will add about $6,500,000 to Michigan Bell's annual payroll. • The settlement means that the Company can keep moving ahead with its big expansion and improvement program to the end that the kind of telephone service wanted can be provided when and where it is wanted. • With both employees and management pulling together, Michigan Bell looks forward to the busy months ahead with complete confidence.

MICHIGAN BELL TELEPHONE COMPANY
