## Students Hope For Big Attendance At Security Program

Hopes are high among the Baldwin High School students that 8 p. m. Wednesday, May 15, will find a large community turnout in the Baldwin auditorium for the student presentation of a model United Nations Security Council meeting. This all student program, sponsored by the Birmingham League of Women Voters as a part of its spring effort to combine and encourage public interest in the United Nations, is being held one day before the Detroit schools' student United Nations conference and like it will give articulate expression to the enthusiasm, interest and belief of youth today in the world organization experiment for peace, as well as being informative.

Besides the general invitation to the public to this program, which is presented without charge, member organizations of the Community Council, all Birmingham school district parents, the membership of the area's churches, the student bodies and parents of Birmingham students in Bloomfield Hills, Blomfield Village, Cranbrook, Kingswood, Holy Name, Annie Ladrup, Sherwood, Oak Hugo's, Tuscarora, Wing Oak schools are being asked.

Plans for the high school girls' uniforms to dress in the garb of many nations were announced by Miss Alice Price of the school's social studies department. The search for costumes is revealing the cosmopolitan character and interests of Birmingham's residents. Costumes already promised for loan by Mrs. H. Philip Pretz, Mrs. John May and Mrs. N. W. Way range from the Balkans to the Orient and the list is not complete. Flags of the United Nations will add color to the scene.

**Palestine Problem**  
Palestine, particularly the immigration problem, involving diverse questions of displaced persons, refugees, freedom of movement, political status and trusteeship, will be the knotty subject of debate and discussion. Member offices in Detroit have been unable to state publicly for the students their country's policy on this question of Palestine. It is said this obstacle has served not only as an eye-opener, but has whetted students' appetites for research on the viewpoints of the countries represented.

Further inspiration is being gained by Birmingham delegates in trips to Detroit starting yesterday and continuing until May 13 to visit the conferences of the Detroit project's student delegates on the United Kingdom, China, Mexico, U.S.S.R., Egypt, Brazil, Australia, U. S., Poland, the Netherlands and France.

Mrs. C. S. Luthi, supervising teacher, said that Mrs. G. A. Perry, conducting the debate and speech training of the delegates, finds that though the students have had no special work in speech or debate and have a two-fold job in learning this technique as well as in sifting material, nevertheless they are naturally good speech material.

## Sharp, These Pros

Take a look at pro Jimmy Demart of Houston, Tex., as he winds up a tournament shot if you want an idea of what the well-dressed golfer is wearing.

relands and France. Each delegate is trying to steep himself not only in the history, geography, economics, political and foreign policy of the country he represents and the issue to be discussed but in knowledge of the real delegate.

**Begin General Study**  
This week begins the general study by Baldwin students of the United Nations, Security Council and the problems involved so that the program will be of school-wide educational scope. When it is presented for a student audience on the afternoon of May 15, preceding the evening performance for the public, it is thought all students will be able to participate intelligently in the discussion from the floor.

Coaching the delegates to begin their talks in the language used in the country represented is posing no mean problem to the language department whose curriculum does not include Portuguese, Polish, Russian and Chinese.

Mrs. C. S. Luthi, supervising teacher, said that Mrs. G. A. Perry, conducting the debate and speech training of the delegates, finds that though the students have had no special work in speech or debate and have a two-fold job in learning this technique as well as in sifting material, nevertheless they are naturally good speech material.

## Special Plant Sale And Aid To Home Owners To Feature Meeting, May 13, of Woman's National Farm & Garden Ass'n

The efforts of the Birmingham Branch of the Woman's National Farm and Garden association to hold a special plant sale on Monday evening, May 13, at the Community House, received the commendation of the City Commission on Monday evening. The sale was organized at the special request of Commissioner Wilmer E. Moody, while he was mayor of the city, and Monday evening Mayor Milton F. Mallender called the matter to the attention of the other members of the Commission.

It was the hope of Mr. Moody that many owners of new homes would find at this sale plants useful in making their yards more attractive. In addition to the sale there will be talks by home beautification experts and architects and landscape experts will be there to discuss with interested home owners.

**All-Day Meeting**  
The Birmingham Branch scheduled for Monday, May 13th, at the Community House, will be held as a special affair, starting at noon with the

**State Senator—12th District**  
(Oakland and Washtenaw)  
Republican—Edgar F. Downs, Ferndale.  
Democratic—Odin Johnson,

## Talks To Rotary

Stewart S. Linton, returned Navy service man of Mr. and Mrs. Lloyd Linton of 208 Oakland, gave Birmingham Rotarians a bit of insight into the finer thoughts and feelings of the servicemen, when he spoke on "My Experiences," at the Monday Rotary luncheon at the Community House. Lack of proper training and lack of proper

help from officers in charge, he said, often left the men with great doubts in their mind as to the purpose of not only of the war but of even life itself.  
CLASSIFIED ADS must be at the Eccentric office by five o'clock Tuesday of the week you wish them published. You may phone or bring them in.

## To Sow Seeds in Hills You Start With a Hollow

Hills are fixed points for planting, lined up and spaced equal distances apart.  
When instructions say to sow seed in hills it does not mean to build a mound of soil and sow the seeds on top of it.  
Hills may be hollows in the modern garden; they are seldom elevated, except in sections where rainfall is heavy and drainage poor. To sow seeds in hills means to spot them at definite intervals some distance apart. Instead of sowing a continuous row.  
Plants often sown in hills are the vine crops—cucumbers, melons, squash—and those that grow very large or tall, such as sweet corn, eggplant and tomatoes. The trough and sowing method is the one you would use for a seed drill, and hills at the proper intervals. Three feet or more should usually be allowed between hills, and at least as much between the rows of hills.  
Scrap out a shallow depression and mix with the soil all its bottom

THE MAN MOST LIKELY TO SUCCEED—WITH HIS VEGETABLE GARDEN...

Vigoro, applied now, will help get a greater yield of finer flavored, more nutritious vegetables.

● Your chances for a successful vegetable garden are much better if you apply Vigoro. This complete plant food supplies the elements plants need for quick, steady growth that leads to big, early maturing yields of vegetables of highest quality.  
Vigoro produces really marvelous results because it's a complete plant food—supplies not just two or three, but all the elements growing things need from the soil. Naturally it gets results that incomplete plant foods can't match. Vigoro's extra elements mean extra yields of finer flavored, more nutritious vegetables. Get Vigoro, the complete plant food, now—apply it now.  
A PRODUCT OF SWIFT & COMPANY  
Vigoro will help you have a lovelier, longer, "gorgeous" flowers. It's a real beauty treatment.
