COFFEE MAKER

S-T-R-E-T-C-H-YOUR COFFEE

This amazing new drip coffee maker of frosted heat-resistant glass, will make those 1 or 4 cups perfectly. Making a little coffee in a 6 or 8 "cupper" is wasteful as the boiling water flows through a thin layer of coffee before it extracts all the goodness. Use this little brewer when making small amounts of coffee. You will be delighted with its gaily decorated neck, wrapped with brightly colored raffia facilitating easy pouring.
