

THANK YOU ---

People of Birmingham and Vicinity For Making Our Opening Successful

The inauguration of Birmingham's new Chevrolet dealership, **THE NORTH CHEVROLET COMPANY**, was an event that was most pleasing to the proprietors of the new business. To merely say "thank you" seems most inadequate for the fine response with which you accepted our efforts to establish ourselves in your community. We assure you that your enthusiasm will accelerate our already strong desire to build a fine new building and conduct our business in a manner that will give the people of this area the finest Chevrolet Dealership in the country.

We are convinced that we are serving the best territory in which an automobile dealer could function. Therefore, we will try to give you the kind of dealership that will make you feel certain that you are being afforded service worthy of such a fine community.

Once again, let us say thanks for accepting us in our limited capacity and with your continued good will we promise you the best Chevrolet agency you could imagine in the future.
