OUR DEMOCRACY — by Mat

STORING—FOR THE FUTURE

STORING HIS ROOT VEGETABLES IN A PROPER CELLAR. THE FARMER KNOWS THERE WILL BE NOURISHING FOOD TO BE USED AND ENJOYED LONG AFTER THE GROWING SEASON IS OVER.

PUTTING A PART OF OUR EARNINGS INTO U.S. SAVINGS BONDS, LIFE INSURANCE AND SAVINGS ACCOUNTS, WE KNOW THERE WILL BE FUNDS TO PROVIDE FOR OUR SECURITY AND HAPPINESS IN FUTURE YEARS WHEN OUR WORKING DAYS ARE OVER.

STORE-GAZING IN BIRMINGHAM

What with emphasis on the weather and how cold it's getting these days, we stopped in at McBRIDE HARDWARE to see what was new in the fireplace line... and discovered that a Bennett, Flexscreen is... custom-built for your fireplace, it hangs like a curtain from a rod... opening in the center... and is made of a scientifically heat treated metal fabric... which is sheer but sparkproof... and which can withstand heavy blows, having the resiliency of steel springs... and features Unipull... the curtain opens easily with one hand... and does away with lifting heavy bulky screens... and scratched floors and hearths... They can be installed by a McBride expert for \$18 and up. They also carry hearth accessories of all kinds... andirons and fireplace sets in solid brass... and very handsome.

Speaking of fireplaces, we also stopped at QUINN'S, Hunter Boulevard at Bowers, and saw some of the prettiest hand-hooked, all-wool rugs we'd seen in many a moon... in sizes perfect for stretching out in front of the fire... or for a bedroom... or for that spot in your home that demands a beautiful rug. Quinn's have them in six lovely plain colors... or in beautifully blended patterns... and each one was hand-hooked in Costa Rica... further individualized by carrying the name of the girl who made it. Unheard of, they come in sizes from 24 x 46 inches... for \$14.95... to a 4 x 6 rug for about \$42... and sizes in between. They're soft as pine needles to step on... the sheared ones being softer... and selling for only a little more.

"Sweets to the sweet" comes true again on Sweetest Day, Oct. 19... and at MAC'S HOMEMADE CANDIES, 207 S. Woodward, we discovered that they will have special one and two-pound assorted boxes of their own delicious candies... all done up in gay Sweetest Day wrappings of gurgled cellophane and daintily herbiboned... at \$1 and \$2... and containing hazelnut and peanut clusters in chocolate, delightful pink and green mint patties; three varieties of fudge, coconut, assorted nut and plain; jelly wafers and peanut brittle. They will also have boxes of each different variety mentioned and other kinds, for those who like to specialize on one particularly toothsome flavor... so for that Sweetest Day gift to that sweetest of persons, stop in at Mac's.

Suit-days are here, what with the frost on the pumpkin again... and blouses are on parade... so if you're looking for just the right suit companion, MULHOLLAND'S have a large and wonderful collection of blouses... in man tailored cotton or rayon... with long or short sleeves... and beautifully executed for easy laundering. They have them in pure sparkling white or madras cloth, pique, broadcloth and chambray... and in lovely solid colors... or prints... or checks... and some that are daintily figured... and all guaranteed washable. For the girl who knows just what blouse should look, these are the answer to a prayer... and they are marked at \$3.95 to \$5.95, which is also good news.

We have seen it and it's beautiful... it's the answer to the housewife's prayer at dishwashing time... the new Kaiser jet action dishwasher... which has no motor... no wiring... absolutely nothing but water, jet propelled... that supplies the energy to spray your dishes splendidly clean in 15 minutes... and then spins the dishes dry in warm air. The standard chassis model... on display at MAPLE SALES & SERVICE... and available immediately for installation in your kitchen... sells for \$99. The standard cabinet model, complete with beautifully finished cabinet... can be put on order... as can the Deluxe model, complete with hydraulic lift... and lovely durable cabinet, with chrome controls... orders to be filled in 30 to 45 days. The Kaiser jet principle is triple action... every dish surface is scientifically cleaned.

Whether it's a gift to a friend or to make your own things specially yours, nothing gives that personal touch so well as a name or initials imprinted... and the INDIAN CRAFT & GIFT SHOP has a complete service... matches, napkins, playing cards, coasters, plastic items, book plates and leather goods... with the item back in only a few days time. Their catalogs of Christmas cards are... and selection are good... so get your cards early and don't be caught without time... also at the shop we noticed a wonderful little soap chest, filled with five bars of Avonmas soap, treated with milk solids and lanolin, and only 75 cents... and a little soap kit containing four tiny bottles of powder, ready to mix, each with one quart of boiling water for chicken and beef soup... at \$1.

For the busy man who finds it hard to find time to shave... or for that man who must absolutely shave twice a day... DICKINSON'S in the Wabcock building have the ideal item... It's a tiny, vest-pocket shaver... called the Vestpak... that really works... merely by moving it up and down on an absolutely dry face... and which can be used any time, anywhere. The shaver is only about one inch square... and operates on a new principle... a tiny two-edged blade rotating inside a perforated metal cylinder... guaranteed to close shave the toughest beards... and priced at \$3, complete with 10 blades. Also Dickinson's we noted their supply of excellently tailored all-wool flannel robes... in small, medium and large... plaid, checks or plain... and priced from \$16.50 to \$35.

Dorothy Maynor On U of M Program

Dorothy Maynor, distinguished American soprano, will be heard in a special concert in Hill Auditorium, Ann Arbor, Monday evening, October 28, at 8:30 o'clock, according to an announcement just made by Charles A. Sink, President of the University Musical Society.

Miss Maynor has been heard in Hill Auditorium on three previous occasions—twice at May Festivals and once in recital. Her successes, not only on these occasions, but in her appearances in the great musical centers of the country have always been triumphant.

Her career has been phenomenal. She was discovered by Serge Koussevitzky, leader of the Boston Symphony Orchestra several years ago. He was so impressed that he immediately had her appear with his organization at the great Tanglewood Berkshire Festival. Her New York debut shortly thereafter filled Carnegie Hall to capacity, and the press throughout the country soon became loudly articulate in telling of her fine artistry.

Detroit Town Hall To Feature Former Canadian Mountie

Dashing Sidney Montague, former Canadian "Mountie," will tell of his thrilling experiences with the Northwest Mounted Police at Detroit Town Hall in the Fisher Theatre, Wednesday morning, October 15, at eleven o'clock.

A vivid raconteur, Montague held his Town Hall audience spell-bound last season with stories of the Far North, and his return for another engagement is by popular request.

For many years, the colorful world traveler and police officer lived a life of adventure in the outposts of the world, sharing the primitive existence of the Eskimos on the rim of Baffin. He studied the people and the lands from the pioneering angle, and subsequently wrote three important books, "North to Adventure," "I lived with the Eskimos," and "Riders in Scarlet."

For his coming lecture, "Monty" will describe in his dramatic style, the highlight of his job as one of the most rugged police organizations the world has ever known. A question period will follow the talk.

Advance reservations for the

Montague lecture are available at Grinnell's, Ra. 1124. For further information about the season series, call Detroit Town Hall Headquarters, Room 230 Hotel Statler, Cherry 5617.

The Government Printing Office alone requires 1.5 million pounds of paper per day the year round.
