Many Persons Use Cranbrook 'Scope To Study Heavens

Studying the moon, planets and stars has proved a popular activity to those who have used the telescopes at Cranbrook's Institute of Science.

This fall, in response to numerous requests, Cranbrook's observatory will be open one night a week for public use. Only groups will be admitted, however, and appointments must be made in order to get in. These may be had by telephoning Birmingham 377 any weekday before 5 p. m.

Individual bookings will still be limited to members, although membership is open to anyone.

By payment of a nominal membership fee, the Institute will be open to individuals, who will also be given library privileges and access to other specialized literature.

Assembly Club Tries For Program Variety

The assembly club, made up of 12 Baldwin students, will try to present a wider variety of more interesting programs for Baldwin's faculty and students this year.

This is made possible by an increase in the student activities tax, which is a fee every student who wishes to attend basketball games must pay at the beginning of the year.

Previously the tax had been 50c, of which the Student Congress had received 25c. This year the charge has been raised to 75c and the assembly club will receive 50c while Congress will still get 25c.

This year's members are Ruth Kadell, Kay Bates, Nan Chapel, Kit Scheifley, Bill Dustin, Knight Houghton, Austin Jones, Jeff Brungraber, Bill Plant, Dick Adams, Jerry Hughes, Bill Kindley,

Complete Printing Facilities
● TYPESETTING
● PRESSWORK
● BINDERY
● MAILING
As you may know, most printers buy their composition and typesetting on the "outside." This delays the production of your job and adds a handling cost to the final price. We operate one of the largest composing rooms in the Detroit area—Day and Night—a great convenience and economy for our customers. It is also the practice of most printers to have their bindery work done "outside." Not so with us—we offer a complete service that gives our plant the edge on nine out of ten printers. May we serve you?
