Twenty-Plus Club Holds Indoor Picnic

The First Baptist Twenty-plus club picnic, originally planned for Bloomer State Park, was held Thursday evening, Aug. 29, in the church basement because of unfavorable weather.

The committee for the occasion, Mrs. Jack Ackery, Mrs. Werner Schettinger, and Mrs. O. C. Davidson, had set the tables before the large fireplace in the basement. After dinner, volleyball and shuffleboard provided activity for those not content to just sit before the fire.

During the brief business meeting the club voted to sponsor the Baptist Youth Fellowship in the church.

The next meeting, at which new officers will be elected, will be held at the farm home of Mr. and Mrs. Frank Boyes on Lone Tree road, Milford.

The entertainment committee for this meeting will be Mr. and Mrs. Darwin Hillman, and Miss Evelyn Harris.

Meet our Boss:

MRS. ROE

Who's the Big Boss of any business? That's easy—the person or persons who own the business!

In the case of Michigan Bell, our Big Boss is "Mrs. Richard Roe" and thousands of other thrifty folks who have invested in Bell System securities and provided the money for enlarging the system and improving the service.

Now let's see what Mrs. Roe's investment helped make possible. Here are just a few examples:

- From 1920 through 1945, it has permitted the Bell System to increase the number of telephones in service from 8 million to 22 million—almost 16 telephones for every hundred people in the United States.
- It has provided the facilities for handling a record-breaking billion and a half toll calls in 1945, compared to 360 million in 1920.
- It has financed the development and installation of dial telephone equipment so that now 4 out of 5 telephones in Michigan, for example, are dial operated.
- It has paid for the construction of 75 million miles of wire and cable throughout the nation, and accomplished many other improvements too numerous to mention.

If this progress is to continue—more money will have to be obtained from more investors through the sale of additional Bell System securities. And, since investors naturally want a fair return on their savings, telephone rates should be sufficient to permit paying a reasonable rate of return.

Michigan Bell's "cost of living," like yours, has been rising rapidly. If it continues to go up, rate increases may become necessary to insure adequate earnings. In any event, Michigan Bell wants telephone rates no higher—and no lower—than necessary to operate the business efficiently... pay good wages... give a fair return to investors and, thereby, protect the future quality of the service we give you.
