**Improvements at  
Pierce Field  
Being Completed**

Plans to provide for better and more efficient equipment in an effort to make Pierce Field one of the best high school tracks in the country are now being completed by Frank Whitney, Birmingham's athletics director.

On the list of new equipment are all steel unbreakable cross-bars for the high jump and pole vault standards, wooden platforms on which to place the standards; and a new pit for broad jumping with permanent measuring sticks.

The track meets this year will be announced to the spectators through the use of field phones and the public address system.

The field is now being re-surveyed so that many of the races and field events are within the sight of the spectators.

Plans for bettering the baseball field are underway and work will be started as soon as the weather permits.
