

### SERVEL HOLDS A BUSHEL OF FROZEN FOODS

Every meal will be more exciting—when you have one of the new 1947 Servel Gas Refrigerators. For its big clear-across Frozen Food Locker holds a bushel of frozen foods—to provide you such out-of-season delicacies as strawberries, asparagus, spring chickens, all year round.

For fresh foods, the new Servel has both moist-cold and dry-cold protection. Two deaeration fresheners actually crisp up garden vegetables, keep fruits fresh and appetizing.

And the big Servel meat keeper protects meat tenderness for days. Shelves give extra roominess because they adjust to eleven different positions.

Famous for silence, the Servel Gas Refrigerator is the only refrigerator with no moving parts in its freezing system. Instead, a tiny gas flame does the work. More than two million happy owners have proved Servel stays silent, lasts longer. Come see the new Servels on display today.
