Cynthia Creighton, Andrew Jackson and Imogene Powrie, members of the cast which played "Three's A Crowd" on Saturday evening, smile their approval as they watch the cast selected for the Friday showing of the Ergasterion Club's annual Christmas presentation. A surprise curtain raiser was arranged and presented by the freshman class, who gave "Faint Heart," as their production. Casting Frank Amerman as the dominating mother, Bob Maitland as the swooning maiden and Dick Saffir as the lively stable employee who changed his mind about a trip to the altar, the play moved smoothly from scene to scene. Directed by Charles Morton, the play was announced by Dave Tector. "Three's A Crowd" was under the direction of Carl G. Wonnberger, with music being supplied by the Cranbrook School Band, under the baton of Alex Magnuson.

**Cranbrook Academy's Yule Exhibit and Sale Opened Dec. 5**

The annual exhibit and sale of the Academy of Art at Cranbrook Institute opened Friday and will continue through Dec. 14. The sale, which is being held in the museum at Cranbrook, will be open daily from 2 to 5 p.m., with evening hours from 8 to 10 o'clock.

Among the items which are on display are scarves, belts, beautiful hand loomed suiting and dress

materials, place mats, silver, brass and copper jewelry, beads and vases, Christmas cards, water colors, drawings, prints and small articles of sculpture. All items are the work of Cranbrook students, and are mute testimony for the beautiful work done there by these talented young people.

Mr. and Mrs. L. T. Bailey of 182 East Brown street? Formerly of Detroit, Mr. Bailey is the superintendent of the Wabeco building

**Kappa Kappa Gamma Honors Ann Collins**

Miss Ann Collins, daughter of Mr. and Mrs. A. W. Collins of Glengary Circle and student of Michigan State College, was initiated into Kappa Kappa Gamma sorority at a ceremony last week. During the impressive rites, Ann was awarded the Sapphire Key, a special award for members who rate exceptionally well in their scholastic standing.

Ann, who is a junior, is taking a course in journalism.

Pay as you drive if you wish

**Put 1947 Power into your car with this brand-new Buick Fireball engine**

OWN up. Don't you dream about bossing a hoodful of flashing 1947 Buick Fireball power?

Doesn't your pulse quicken at the thought of nudging the treadle and feeling the surge of lift and determined drive these sleek new babies have?

Then here's something you'll be glad to know about.

You can get a brand-new 1947 engine for your car — a factory-fresh, Fireball straight-eight for any Buick built in the last ten years. It's the selfsame Dynafish beauty

going into new Buicks every day.

You see, we can build engines faster than we can build cars. It's sheet steel, bodies and other parts that are short and that hold back complete automobiles.

So we have these engines right now. We can lift out your present one, lower a gleaming new one in its place, and there you are with one of the keenest, liveliest power plants

on the road today, and with a car worth lots more when you're ready to turn it in.

It doesn't take long — far less time than a thorough overhaul. And it usually costs less in the bargain.

So here's your chance to get snappy, powerful 1947 performance. It's next best to getting a new Buick. Drop around and let us give you facts and figures.

Right now, before the Holidays, your local calls may meet delays

THERE'S nothing your telephone operator would rather do than answer your signal the instant you lift the receiver.

But around this time of year the Holiday rush puts an extra-heavy load on telephone switchboards. So many calls come in that at times every switchboard cord needed to make connections is in use. When that happens, the operator is unable to answer your call until someone else hangs up.

That is why during the next couple of weeks there may be more occasions when you'll run into a slight delay before you hear the operator's familiar "Number, Please?" But you can be sure she will answer your signal just as fast as she can.

Meanwhile, keeping your calls reasonably brief and avoiding the busiest hours—10 A.M. to noon and 3 to 6 P.M.—when you can, will help her put more calls through faster.
