

League Supports Sigler's Plan to Solve Tax Problem

Capacity houses greeted both sessions of a pair of open meetings held in the Community House by the League of Women Voters Monday morning and afternoon when subjects now in the public eye came in for discussion and opinion.

Taxation and economies were in the spotlight at the morning meeting, while the afternoon affair made public the status of legislation now pending in the state and national capitals.

Mrs. Covert Robertson, chairman of the morning session, declared that the League supports Governor Sigler's proposals, including the repeal of the recently approved sales tax diversion amendment, in order to make possible a complete revision of the state tax structure.

According to Mrs. Robertson, the League also advocates holding public works to a minimum under present conditions and increasing salaries of teachers and white collar workers.

explain the basic elements of our national economy from the standpoint of monopoly, bank credit, and saving for security. Additional comments on the economic subjects following the slide film were presented by Mrs. Brooks Marshall, Mrs. John May and Mrs. P. C. Smith.

The problem of the state's \$83,000,000 deficit was covered by Mrs. Edwin Clark, who asserted that those who oppose Governor Sigler's plan for a new tax structure advocate dipping into the \$50,000,000 veterans' trust fund.

Heid declared that the Federal budget now under scrutiny in Congress, must provide for \$3,000,000,000 toward debt retirement alone. He pointed out that 24% of the nation's income will return to the government in the form of taxes.

Heid said he favored stronger enforcement of the tax laws, asserting that 25% of the nation's income is not now returning any tax to the government.

Mrs. Allan Lutz, chairman, outlined the legislative matters confronting the 80th Congress in connection with bills dealing with labor, the reorganization of Congress, and atomic energy.

Mrs. Blair Swartz explained the Taft bill providing Federal aid to education. She also mentioned the approval of the National League of Women Voters.

Further Study Needed Mrs. Peter Loomis reported details of the State child labor bill recently presented by Senator Little. Preliminary reading of the bill, according to Mrs. Loomis, indicates that further analysis will be necessary.

Reporting on the current lobbying in Washington in connection with the reciprocal trade agreements, Mrs. Henry Foley pointed out that the League favors retention of such agreements to insure liberal trade between the U. S. and other countries.

Reports were made by Mrs. T. Hollister Mabley on state tax legislation, Mrs. Lee A. White on the Taft bill on housing, Mrs. John Lambie on the condition of our natural resources, and Mrs. Charles Shain on Europe's displaced persons.

cupational medicine, Wayne University, Dr. Langdon T. Crane, Dr. Palmer E. Sutton, Dr. Howard Gehring and Dr. Ernest W. Bauer of the Woodward General medical staff.

Strassing the need for education in industrial medicine in this highly industrialized area, Dr. McCord declared that few "organized educational facilities or arrangements now known to exist are functioning in such manner as truly to prepare physicians for immediate functioning on a proper level as industrial physicians are required to provide industry seeking such personnel with candidates adequately qualified.

After reviewing the proposed program of the Woodward General Hospital, Dr. Petersen assured the group that, provided the plan is carried out as outlined, the American Medical Association will consider institution of examinations which will certify physicians having completed residencies as diplomates in industrial medicine.

Dr. Bauer explained that "physical resources of the Hospital will provide a place where industrial physicians can service the many small industries of the area and have at hand complete and modern equipment for diagnosis and treatment. At the present, no such service is available to small industry.

Seeing-Eye Bars Her From School

Oldtime Political Rally Is Planned by Local Realtors

Birmingham realtors this week made known that confirming their efforts to actively participate in all movements for the betterment of their community, they will sponsor a non-partisan "town hall" type of meeting or political rally for the express purpose of having interested citizens meet and hear all candidates intending to seek election this year to the City Commission.

The election will be held April 7th and the meeting will be held Monday night, March 31st, in the Community House Auditorium at 8:00 o'clock. Realtors seek, and have asked for, complete co-operation in jointly sponsoring this meeting from all civic organizations, such as Junior Chamber of Commerce, Retail Merchants Association, League of Women Voters, veterans' organizations, Rotary, Exchange and Lions Clubs and all other citizens or groups who feel a sense of civic responsibility and are willing to participate in the program. Evaluate Candidates It is felt that such a non-partisan meeting would be enlightening and beneficial to all electors in evaluating and judging the candidates on their merits and in this way become better informed as to the qualifications and capabilities of those wanting to help in directing the city's affairs. Actively working on this project is Realtor Board President, Fred M. Brooks; Elliott S. Kinney, chairman of the board's public relations, and Frederic C. Pew, chairman of the Board's civic affairs activity. Finders Keepers "Did anybody drop a roll of bills with a rubber band around them?" asked an old gentleman in the train. "Yes, I did," said several voices. "Well, I just picked up the rubber band," said the old gentleman calmly.

proposed Woodward General Hospital from obtaining medical internships, since the American Medical Association and the American College of Surgeons have refused to accredit internships who train at hospitals to which osteopathic physicians are admitted.

Dr. Wood's proposed separate unit for osteopathic patients apparently not conflict with those standards, however, because of the separation of the two units.

Should Be Allowed Use "As an institution which is to be tax supported and already has been subsidized by grants from various cities, osteopathic patients contribute to the hospital and therefore should be allowed its use," Dr. Wood stated.

Many persons of South Oakland County are osteopathic patients, he said, and would like to be admitted to a hospital where their own osteopathic doctors could treat them.
