POTTER MOVING AND STORAGE CO.

We'll keep the song in its heart.

You know the song well. It's the lilting melody of a double-quartet of Buick cylinders all sweetly in tune. The humming harmony of Fireball power soaring you up the hills, winging you blithely along the straightaway.

It's one of the reasons you bought a Buick in the first place—why not keep it?

You can—in if you make certain your car is not merely serviced but cared for as something this fine should be.

If you see that it gets not just an occasional oil change or body wash or battery check, but the thoughtful, expert, understanding attention that keeps your Buick always a Buick at its best.

It's to do just this that we equip our shop with special tools to do the job right and in the shortest time—keep our parts department stocked with parts approved by Buick engineers as right for the job—build our staff around people who specialize in knowing what makes Buick "tick."

It's the reason we look on every job that comes in not merely as work to be done—but as a result to be achieved.

The cost of such car care is no greater than the same amount of ordinary servicing. The return is far greater in the long-run smoothness, satisfaction and car life you get.

If you care about your Buick—let us care for it.

12,000 REASONS FOR GOOD CARE

Compared with your Buick, a fine watch is a piker. Your Buick has one hundred times as many parts—12,000 of them—and every one planned and produced for its own special job. Knowledge of these parts, how they're designed and what care they need, is important in such seemingly simple jobs as:

- ✓ Proper lubrication adjustment
- ✓ Clutch and brake adjustment
- ✓ Engine tune-up
- ✓ Care of cooling system
- ✓ Alignment of steering gear
- ✓ Adjusting shock absorbers for easiest ride

It's safer to get Buick care in all such matters.
