

No Nickel and Dime Project It has become apparent that residents of Birmingham...

From the Hospital Authority's headquarters here in Birmingham comes the distressing news...

No one yet has denied the need for the proposed 300-bed hospital which will serve this area...

This is no nickel or dime affair that the residents of the 16 participating communities have before them...

It must be realized that \$2,500,000 will be raised from residents of Southern Oakland County...

Too many persons believe only a small contribution is needed for their support of Woodward General Hospital...

But that is not the case with Woodward General. Just 160,000 Southern Oakland County residents will use the hospital...

To cite a most typical example of the attitude of many persons contributing to the campaign...

He just didn't understand the financial mechanics involved. Once he learned them, he obligingly came forward and undertook his share of the burden...

To repeat, raising \$2,500,000 from 160,000 people to be used for their benefit alone is no "nickel and dime" proposition...

tribution to a worthy cause, the Woodward General Hospital campaign will go over the top in a great hurry.

The extent to which the goal is realized in the current campaign will be governed only by the extent to which each person realizes the financial mechanics of the project.

It is no nickel and dime project for the 160,000.
