BIRMINGHAM

We know how he feels

Ever try to go down a moving stairway that's coming up? It takes time to get to the bottom. It's like our trying to get to the bottom of our waiting list for telephones. For nearly every order we can fill we receive another new one. So there are still a lot of people waiting. We are making headway. More and more cable and central office equipment are being manufactured and installed. And we're installing telephones faster than ever before. If certain materials weren't so hard to get, the job would go even faster.

There's still a long way to go and a lot to be done before we can give service to everybody who wants it at any time and any place. But we'll keep right at it until that day comes.
