Have you been enjoying the hospitality and the coolness of the Ranch Room, after a hard day's work, or a game of golf? If you haven't, plan now to drop in for an evening of bridge or ping-pong, or to dance to some of the new hot tunes in the lake box.

We have received an invitation from "The 20 Up Club" and "The House in the Woods" to join them on a moonlight cruise to Bob-Lo on July 30. The invitation was received by Johnny Marks, and since we want to show them just how active and energetic we are, let's everyone let John know of his invitation to attend. Also, if you have extra room in your car, let John know that, too. The cruise will start at 8:30, and he can give you information concerning our start from here, and we certainly should do it more often.

Bob Erwin and Chuck Van Flaterson, our Duz Duz Everything boys, broken into song last Thursday night, and soon everyone around was joining in. It put us all in a gay and joyous mood, and we certainly should do it more often.

Jim Auchterlonie is holding his title as ping-pong champion with no serious threats, so far. He has issued a challenge to anyone who will play against him. How about it?

Among the gals and guys, bridge seems to be about the most popular pastime these hot summer evenings. Tuesday night found Ginny Walsh, Gene Hadji-

ky, Marilyn McIntyre and Bob Cavan huddled over a game, while off in another corner was Dolly Moore, Gene Richardson, Jean Gibbs and Jim Auchterlonie.

The Community House will be closed during August, so there are but a few Tuesday and Thursday evenings in which you can join the "1930" crowd in the Ranch Room. Better drop in, and make the best of the evenings that re-

Over-Fatigue Invites Polio in Summer Months

Strenuous exercise or games causing extreme fatigue should be avoided during the hot summer months as another precaution against polio, the National Foundation for Infantile Paralysis, through its latest chapter, stresses among six simple health rules that should be observed in combating the disease.

Tests on laboratory animals carried out in experiments financed by March of Dimes funds, showed that where animals were strenuously exercised, twice as many of them exposed to the virus developed more severe forms of infantile paralysis than did those which had rested quietly in their cages.

The studies indicate, the National Foundation points out, the wisdom of avoiding extreme fatigue is a worthwhile precaution in the polio danger months—June through September.

From where I sit... by Joe Marsh

"Not Responsible For Wife's Debts"

A young man came rushing into the Clarion office the other day and wanted me to print an ad—"right quick"—saying he won't be responsible for his wife's debts from now on, as he's leaving her for good immediately.

I allowed as how the forms were all closed up, and it was too late to take his ad. He says: "All right, Monday then"—and we agreed on Monday.

Of course, the forms weren't closed. But I had kind of an inkling of what might happen. Then Sunday he phones me, and says, kind of sheepishly: "You can forget that ad. Me and the missus have everything all patched up. And we're having a friendly glass of beer, right now."

From where I sit, if you give folks time enough to think things over, those nasty quarrels that come so often from misunderstanding will give way to tolerance and common sense.
