Reveal Schools Southfield Pupils Will Attend

Plans have been completed for high school attendance for all eighth and ninth grade June 1947 graduates of schools in Southfield Township, it was revealed this week by Glenn Levy, business manager of the Board of Education of the Southfield Township School District.

He said that arrangements have been made for the pupils from John Grace, Southfield, Bruce and Magnolia Schools to attend Highland Park Junior High School. Transportation will be furnished, he stated, and graduates from these schools will be notified by mail when to enroll for September classes in Highland Park.

"Pupils from McKinley and East Southfield Schools will attend Berkley High School, and these pupils are now enrolled," he explained.

Students from Angling Road, Brooks and Latrup Schools will attend Royal Oak Junior High School, and transportation will be furnished to both Berkley and Royal Oak, he said.

"Pupils from Southfield Township School District who have been attending Cooley and Redford Union high schools will continue to attend these schools with transportation furnished, according to present plans, he said."

Strictly Fresh

ABOUT the only fun the Azmaras Indians on a remote 14,000-foot plateau in the Andes ever get is drinking "tinkis" at funerals and on holidays. Formula for tinkis: One quart alcohol, one quart water, one handful coca leaves (source of cocaine), and one handful of cigar butts. Take straight, without chaser. Result: A tinkin' hangover!

The House of Representatives recently voted to give a Tennessee farmer 10 cents each for 375 foxholes dug on his property during Army maneuvers in 1943. Infantry veterans will want to know who did the aprinning—that's for sure.

What's it going to be like for the campus toadler in the current education setup who has to enroll in a nursery school this fall after two glamorous years at college?

James A. Hard, oldest living Civil War Veteran from Rochester, N. Y., said he wasn't a bit scared when he took his first helicopter ride to celebrate his 104th birthday recently. In other words, after Bull Run, he'll try anything.

This Started Something!

You're looking at the beginning of a new day in the history of the automobile. A new day of super-safety for motorists when steel grids replace old-fashioned body bolts. . . . A new day of bigger, more comfortable cars, operating on far less gasoline. . . . A new day in which cars won't rattle or squeak in body or frame. . . .

This is what you see in X-ray view below—Nash's single unit body and frame!

With 8,000 welds joining every piece of structure steel in "pocket battleship" strength . . . engineers predict it's the construction that's bound to come someday in all automobiles.

But you have it today in a Nash '600'!

You see it in Nash '600' mileage of 25 to 30 miles on a gallon . . . 500 to 600 on a tankful, at moderate highway speed!

You see it in the roomy size of a Nash . . . feel it in Nash performance . . . enjoy its smooth ride on Nash's deep coil springs at all four wheels.

Even the air is different in a Nash! Always fresh, pure and draft-free . . . because the famous Nash Weather-Eye System of Conditioned Air has automatic control!

You get it all in a Nash . . . plus value that's making Nash the fastest growing car in popularity today.

And it's value you want in your 1947 car.

Your Nash dealer has the new Nash '600' and Nash Ambassador. See him today for—The Pattern of Cars to Come!

You'll be Ahead with Nash Since 1902

44 ways to get "Something for Nothing"

The crew would get at least two days' pay for one day's work. The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

You Can't Afford This Waste

Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work, not waste, this is it.
