## Hang on to your Hearts, Folks — it's easy to lose them to this one

Sure as sunrise, it's going to happen: Someday you're going to slip into a sleek-lined Buick Convertible "just to see what it feels like."

You'll want to find out for yourself if it's as wonderful as it seems to ride in all this stunning style — to be boss of the year's brightest highway beauty.

Well, you find a wheel that seems molded to your hand, deep, wide seats that might have been fashioned for your own special comfort.

You'll look out over a broad bonnet, front-tipped with a richly gleaming grille, and know how a king feels sitting on his throne.

Just listen as eight big Fireball cylinders erupt into life — then settle to a sweet contented purr.

Watch—as each threatening road-jar meekly subsides under the gentle magic of soft coil springs on all four wheels.

Get the feel of roadweight that's like a steady hand guarding every mile. Try the handy push-button controls that operate the top, the door windows, even the front seat adjustment.

Test the lightness of the wheel, the quick bite of brakes, the instant upsurge when you touch off the gas treadle.

By now, you find yourself succumbing completely. This, you tell yourself, is meant for me. How do I make it permanent?

The first step is to see us — and get your name down. After that — the busy beavers of Buick's on-the-ball production staff will move heaven and earth to join you and your one-and-only the first possible moment.
