It's Your Buick — but our Sweetheart

LOOK AT YOUR BUICK
everyone else does

Your Buick has lines and style that win wolf calls. Are you keeping it smart and handsome as it should be? Are you protecting its good looks, its luster and color?

There's a way to do it that Buick engineers say is right. It's called Paracolorizing. This is a power-buffed finish that gives a smooth gloss to the body paint, sealing the pores and protecting the surface against road grime and dirt.

That's the way we do it here. Try it. See how it keeps a new car lustreous longer — how it gives older ones a new lease on good looks.

IT ALWAYS PAYS TO GET BUICK CAR CARE

When you first slipped behind the wheel of that Buick of yours, remember how your heart lifted? Remember your happy smile as your toe touched off the hum of Buick Fireball power? And your widening grin when all roads seemed downy as you winged along on BuicOil springing?

That's what Buicks are built to do. And they'll do it long and well when they're cared for as anything so fine should be.

Not just an occasional oil change, mind you. Not a haphazard "Look 'er over, fill the battery, check the air." But interested, competent, understanding car care that keeps your Buick at its best.

That's exactly what we're set to give. In our shop we have the special Buick tools to do jobs quicker and better. In our parts department is a stock of Buick engineered parts for Buick cars. And we have a staff of thoughtful, capable specialists who know their Buicks lock, stock and barrel.

No, it's not ordinary service you get here. It's expert car care — by an organization devoted to seeing that you get the most out of your Buick. And surprisingly, for the same work done, it costs no more.

Think it over. Isn't it wise to let us care for your Buick? After all, Buicks are our sweethearts, first, last and always.
