WATCH THAT KITE! Watch where you're flying it, fellows. Keep it away from electric wires. Watch out for metal ribs in kites and for metallic-wound kite strings. They may be dangerous conductors of electricity. Don't take chances with wet cotton kite strings, either. If your kite hits a high-tension wire, you may be badly shocked. Watch that kite—but look out for wires and cars. Play it safe... and play it smart! The Detroit Edison Co.

From where I sit... by Joe Marsh. Where's the Argument?

You should have heard Ed Carey and Spike Miller debating the merits of Guernsey versus Holstein. Ed's own breed, and Spike's... but, to hear them argue you'd have thought that they'd been dairying for life. Finally they put it up to Sam Carter, who breeds dairy cows! Sam's hams and haws... and concludes there's a lot to be said for Holstein, and about as much for Guernsey... take your pick! Actually, Ed and Spike were like people arguing about—say, beer versus buttermilk. Folks who've never tasted beer will sometimes get mighty vehement about their choice of beverages. And folks who've never tasted buttermilk will be equally big-headed.
