### New Sporting Goods Store Now Open on South Woodward

A new sporting goods store is the newest addition to the Birmingham business district. It is located at 116 South Woodward in the former location of the Birmingham Ration Board and is operating under the title of Bob Craig, Incorporated. Bob Craig of Bloomfield Hills is the proprietor. The building has been redecorated and new fixtures have been installed and more equipment is to be added in the near future, Craig has announced.

Craig is a native of Bloomfield Hills and a graduate of Cranbrook where he was a member of various athletic teams. He coached the wrestling team at Cranbrook last season. He served for three-and-a-half years with the Marine Corps in the South Pacific and was a captain at the time of his discharge. He has been employed in the sporting goods department of the T. B. Kaye Company in Detroit since he returned from the service.

At the present time Mrs. Doris P. Lovett and Dean Crater are employed at the new sports store.

Now I'll tell a bedtime story

"When that blustery old wind makes the curtains dance and the windows rattle, it's fun to hop into a bed already warm and cozy.

"How come? My new electric blanket, of course.

"Mom likes it, too. She sleeps better 'cause she knows I'm snug and warm no matter what the weather. Sis (who's pretty smart for a girl) claims bedmaking is easier. And Dad goes for it because it costs only a few pennies a week."

Blissful, healthy slumber is as close as the nearest Detroit Edison office or your neighborhood appliance dealer who stocks automatic electric blankets. Made of pure virgin wool by firms who created electrically heated flying clothing, automatic blankets are light and fluffy-textured. In soft boudoir pastels, they wash beautifully, and one blanket does the work of three old-fashioned ones. See them today... and switch to better sleeping. Satin-covered electric comforters are available, too.

### SO EASY TO USE!...

Set your bedside control once a season for the degree of "sleeping warmth" you want. Your blanket automatically adjusts to temperature changes.
