Public is invited
Winding up the day's agenda, the delegation will assemble in the auditorium for a brief business meeting at which time the ratification of the league constitution will be the main business.
The finale of what is hoped will be a perfect day, will be to entertain the visitors in an informal "cocktail conference" in the ranch room.
Because of the prominence of the morning speaker and interest in his subject, the Birmingham public is cordially invited to hear Barnes's address. Anyone interested in acquiring a guest ticket should phone 825 or 3648.

4 Cranbrook Boys
Try for Awards
Seniors at Cranbrook School, Bloomfield Hills, have nominated four of their classmates for Pepsi-Cola scholarship examinations. Those named as "most likely to make an important contribution to human progress" were Lauren F. Otis (Bloomfield Hills), Daniel Elshberg (Highland Park), Benjamin Bennett (Flint) and Andrew H. Jackson (Flint).
The two-hour examination, to be given at Cranbrook School on Friday, November 21st, is a specially prepared scholastic aptitude test. Students from each state who receive the highest scores will take the second examination on January 24th, the regular supervised scholastic aptitude test of the College Entrance Examination Board. On the basis of this test, Pepsi-Cola 4-year scholarships will be awarded and the five highest runners-up for each scholarship will receive the College Entrance Award.
The final winners will be announced early in March.

PAVING

was more than purely a residential street, has been and always will be.
"We have told others that the city couldn't get along with narrow streets, yet we propose to make a street wider to accommodate and plan to make it only 22 feet in width. I don't want to see the city make an improvement which will be no improvement," Mallender concluded.
Commissioner Don Bell immediately sided with Mallender.
Cost More Than Worth
"It now appears that all of us will find the project too costly for what we will be getting out of it," Bell explained. "The property owners, as they have told us tonight, would just as soon leave the street the way it is. We aren't improving the traffic problem with this improvement, and it will cost the city more than it is worth from that standpoint."
In the voting which followed, Mallender, Mayor Ralph Main and Commissioner Ray Palmer, all Bell voted against confirmation of the assessment roll. Only Commissioner Bill Moody and Theon Var. Dusen approved the roll.
Commissioner Bill Martin was absent from the meeting.
In the motion to abandon the project rather than leave it hanging fire, the above voting was reversed with Moody and Van Dusen opposing the abandonment.

Films on Russia
Will Be Shown
"Inside Soviet Russia—1942," the first comprehensive color motion picture story of present-day Russia ever to be brought back by an American, will be shown at the World Adventure Series by Julien Bryan, world's greatest documentary film photographer, at 8:30 this Saturday evening, Oct. 18, and repeated this Sunday 2:30 and 8:30 at the Detroit Institute of Arts.
Bryan personally filmed these color pictures in Russia from January and February. He traveled as an unofficial observer for UNRRA, paid his own expenses. His films were not censored by Russian authorities.
The new pictures cover White Russia and the Ukraine thoroughly. A few highlights: Odessa, Kiev, Minsk, other cities. The tremendous Nazi war damage. Everyday life of everyday citizens. Factories, stores, industries and clothing schools, hospitals, churches, village life, collective farms.
This was Bryan's first trip to Soviet Russia, and he will compare conditions today with conditions as he saw them ten and fifteen years ago.
