Where "the tone of voice" is important

WHENEVER you send a greeting card: choose it carefully. There are cards, and cards, and cards—but in the sending the "tone of voice" of the card you select as your greeting takes on importance.

This is because, for one thing, the degree of your thoughtfulness is reflected. Therefore a greeting is, after all, sent to say Thank You or "Get Well" or Happy Birthday or Merry Christmas and to say so eloquently. But eloquence is not achieved if carelessness enters into the selection of idea, design or verse.

The nation's finest greeting cards are available in Birmingham exclusively at LaBelles. Choose those you send carefully, leisurely, thoughtfully—so that your greetings will have exactly the right tone of voice.

One of our downright pleasures

In addition to seeing our patrons generally, it is always a particular pleasure for us to meet Birmingham's new little citizens. Time was, in fact, when some of our present-day grown-up patrons who are now visiting the Shop with their youngsters, were just little tikes themselves.

But then, this Shop is "nearly twenty now" itself; despite the difficulty in realizing it—which is mostly because the years in Birmingham have been such busy ones for us as we endeavored to keep pace with the growth of the community.

As the passing seasons melt into years we assure you that Birmingham's youngsters are always welcome here, and that we shall take particularly good care of them when they are old enough to come to the Shop alone.

Next time your youngster is with you, let us show the little lad or lassie the new Books and Toys and Games: designed for his and her age level.
