

Expect Woodward Avenue Resurfacing to Start Today

Resurfacing of Woodward avenue between Brown and Oakland, is expected to start today, according to City Manager Donald C. Egbert.

tractor began to resurface portions of East Maple, Ruffner and Dorchester. DPW crews expected to complete the raising of Woodward manhole tops by yesterday, a necessary step before asphalt surfacing is applied, Egbert explained.

Decision for CLUB NEWS remains at noon Mondays. adv. ft

NOTICE TO PATRONS OF LIBERTY CLEANERS

Beginning October 15, our downtown store at 123 West Maple will be closed so that we may carry out extensive remodeling plans.

During this period, which we expect to last about three months, all of our business will be transacted at our convenient location at—

835 HAYNES AT HUNTER BLVD.

Kirk in the Hills Chapel Dedicated by Presbytery

Dr. Leslie A. Bechtel, executive secretary of the Presbytery of Detroit, has been named acting pastor of the newly dedicated Kirk in the Hills Presbyterian church. The first services were held in the church on Sept. 21, when the chapel was dedicated.

the most lovely surroundings anyone can desire. At present the church offers such extra facilities as a ladies lounge, kitchen, and even private adequate housing for visiting clergy.

Dr. Joseph A. Vance, pastor emeritus of the First Presbyterian church of Detroit, was the guest speaker at the dedication of the chapel. Dr. W. Glen Harris, pastor of the First Presbyterian church of Birmingham, with officials of the Presbytery of Detroit, officiated at the dedication ceremonies.

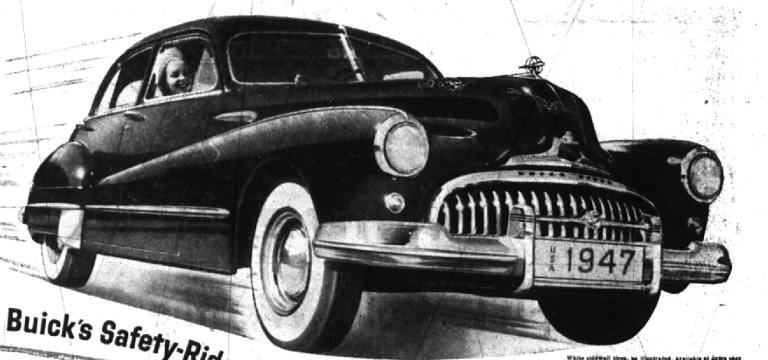

The church is located on West Long Lake road, one-half mile west of the intersection of Telegraph road.

Softer Miles and Safer Miles

..Thanks to Buick's Safety-Ride rims. You sense it right from the first in the way your Buick handles. You feel it not only in the cloud-soft ride of this big beauty, but in the way it seems to lean into the curves, the way it holds its "track," answers unflinchingly to your touch on the wheel.

Put a Buick wheel beside a wheel from other cars, and you see at once that Buick rims are wider. In fact, they are an inch to an inch and a half wider—from 20% to 33%. By this simple step, standard-size tires of any make are given greater air capacity. This permits lower air pressure and the softer ride that naturally comes from traveling on 25 pounds instead of 30. In addition, widening the base of the tires gives bracing against side-thrust, as your legs brace you when you stand with feet apart. This checks sideway and the tendency of a tire to "roll under" on sharp or fast turns.

ONLY BUICK HAS SAFETY-RIDE RIMS. There's more rubber on the road with Safety-Ride rims. Result: More traction, better braking, better car control, more skid prevention. On fast turns, tires on ordinary rims "roll under" the car, sometimes almost along the sidewalk; Buick's wider Safety-Ride rims check this.
