Lamp Studio Opens in Adams Square

Announcement is being made this week of a new firm opening in the Adams Square Building at Woodward and Adams. It is to be known as the Walters-Dymond Lamp Studio and will be operated by Charles Walters and Ruth Dymond, both of Detroit.

Prior to this venture into business, Mrs. Dymond was the buyer at the Michigan Chandler Company of Detroit and other Michigan cities.

The store has stocked the latest and most unique lamps on the market today, according to Walters.

Both proprietors will be in the store at all times and at present will be open on Thursday, Friday and Saturday evenings until nine.

A Navy PT boat, operating at maximum speed, consumes up to 500 gallons of gasoline an hour.

"Land sakes... it's the Edison man"

Surprising, isn't it, how quickly Edison servicemen can respond to a trouble call? As small a thing as a burned-out fuse in an electric range will bring the Edison man to the most remote farmhouse with remarkable promptness.

In addition to emergency services, it's great to know that Farm Service Advisors, Home Service Advisors, and appliance repairmen are ready to serve you—quickly and efficiently.

Part of the answer for the speed of Edison service is the number of Edison offices—46 of them throughout southeastern Michigan. Part can be found in the pride that Edison employees take in helping you get the most out of all the electricity you use.
