Is not a side-line with The Eccentric as is the usual Is not a side-line with 1 he Eccentric as is the usual case with newspaper plants, Yes, the time was when this was true here. But in the last 20 years the pic-ture has completely reversed, Our newspaper vol-ume is only about 10% of our total business. Our, printing facilities are as extensive as metropolitan changed in the base of the last part of the property of the proplants-it is only in location that we are suburban in characteristics. This "suburbanness" includes neighborly, friendly, informal buyer-seller relation-ships-alertness-yet calmness; personal attention-not frenzied confusion.
