

There is A Star In the Sky on Christmas Eve

By Doris E. Kae. A deep purple sky is lighted by a silver spangle and a single glimmering star...

and faces are turned to the East towards hope and faith and strength. Protection and Love. Vivid, gay red is the color of the sleigh as it passes across the path of the moon...

Chicagoan Gives Lecture Here on Christian Science

That there never has been a mode of dealing with disease as effective or as satisfying as that of Christ Jesus was the keynote of a lecture given Sunday afternoon by Ralph E. Wagers, member of The Christian Science Board of Lecturers...

Since then, the speaker said, the element of scientific, spiritual healing had been lost until restored through the advent of Christian Science. On this subject, the speaker said, "The greatest area of misunderstanding between Christian Science and

established systems of religion and medicine seems to center in the necessity of departing from the usual material means of treating disease. Yet, spiritual and material means are fundamentally opposed to each other, and cannot be made to work together."

Basic Point. Any conflict between Christian Science and material media, he said, revolves around the basic point that Christian Science recognizes all disease, regardless of its form, as "deception" rather than fact.

ther to declare that all disease is the result of wrong thinking, that "since God is the only cause and creator, causation must be spiritual." And if causation is spiritual, people have been permanently healed of physical ills through this understanding of man's spiritual origin.

The audience was offered the comforting assurance that while "problems are human, the answers are divine." And since "that which is divine is infinite, there is a divine answer to every human problem. When the answer appears, the problem disappears."
