ORDINANCE NUMBER 376 AMENDMENT TO BUILDING CODE

AN ORDINANCE TO AMEND ORDINANCE NO. 184 OF THE CITY OF BIRMINGHAM, ENTITLED "BUILDING CODE BY AMENDING SECTIONS 1.103 (a), 1.104 (a), 1.107 (a), 1.202 (g), 9.101 (d) and 9.101 (e) TO REPEAL ORDINANCE NO. 208 OF THE CITY OF BIRMINGHAM AND TO PROVIDE FOR THE REPEAL OF ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HEREWITH.

The City of Birmingham Ordains:

1. That Ordinance No. 184 of the City of Birmingham entitled Building Code be and the same is hereby amended by amending Sections 1.103 (a), 1.104 (a), 1.107 (a), 1.202 (g), 9.101 (d) and 9.101 (e) to read as follows:

1.103 (a) No building hereafter erected or remodeled shall be occupied until a certificate of occupancy has been issued therefor. The Building Inspector shall be notified when the building is ready for final inspection, and if found to have been constructed in accordance with the provisions of this ordinance and other statutory requirements, a certificate of occupancy shall be issued therefor to the owner. Such certificate of occupancy shall show the use to which the building may be put and the maximum allowable floor loads for each floor thereof. A temporary certificate of occupancy may be issued for the temporary use of a portion of the building prior to the final inspection. It shall be unlawful for any public service corporation or the Water Department of the City of Birmingham to begin service to a building, except temporary service for use during building operations, until a certificate of occupancy shall have been issued and posted on the premises. No such certificate of occupancy shall be issued until there has been paid to the City Treasurer's Office such fees as may be provided or required therefor.

1.104 (a) The use or occupancy of any building shall not be changed until a certificate of occupancy permitting the change in use or occupancy is issued by the Building Inspector. No such certificate of occupancy shall be issued unless the building shall comply with the requirements of this Code for the proposed occupancy and in Paragraph (h) (the Preface of this Code), and unless the owner, City Planner, shall have fully complied with all terms of this Ordinance and shall have paid all permit fees or other charges herein required.

1.107 (a) Before any permit whatsoever or any amendment thereto shall be issued under the terms of this Ordinance or any amendment hereto the applicant therefor shall pay to the City Treasurer a fee for the same in accordance with a schedule to be adopted by the City Commission. Such schedule shall be adopted by the Commission and the same may be changed or altered from time to time and the same shall have the full force and effect of law under the Building Code, provided, however, that such schedule need not be published but the same shall be posted in a conspicuous place in the office of the Building Inspector, the City Treasurer and the City Clerk.

1.202 (g) It shall be the duty of the holder of every permit to notify the building inspector in writing of the time when such building will be ready for inspection according to the following schedule:

Sheds and garages of less than 600 square feet floor area shall require two inspections; one of the rat wall and one inspection upon completion.

All buildings other than those listed above shall have three called inspections.

1. Foundations; upon completion of foundations, but before backfilling the earth around the foundations or proceeding with the superstructure.

2. Framing; upon completion of the structural framework, but before it is covered with lath and plaster, or other covering.

3. Final; upon completion of all portions of the building governed by this Code and the installation of all equipment or devices required by this Code, but before occupancy.

Failure to notify the Building Inspector of the time for such inspections shall automatically result in the permit being lapsed. Before re-instating such permit, the Building Inspector may require the payment of a second fee equal to the original fee for permit. He may also require that the earth around the foundations be removed, structural members be uncovered or such other operations be performed as will permit inspection.

Where upon the making of any inspection it shall appear to the Building Inspector that the work has not been satisfactorily completed to the point in accordance with the requirements of this Ordinance or that such work is defective or the same is not ready for such inspection, the Building Inspector shall make a report of such fact and deliver a copy thereof to the holder of the permit or his authorized agent and if for any reason in this paragraph contained it shall be necessary to make more or more additional inspection the holder of such permit shall pay for each such additional inspection such fee as may be established therefor by resolution of the City Commission as hereinbefore provided and such fees for additional inspections shall be paid prior to the issuance of any certificate of occupancy under this Code.

9.101 (d) Before a permit is issued for the use of any street or sidewalk the applicant shall pay to the City Treasurer such fee as shall be established therefor by resolution of the City Commission as hereinbefore provided.

9.101 (e) When in the opinion of the Building Inspector the building operations have progressed to such an extent that the use of said street is no longer justified he shall order the same to be vacated and restored to its original condition. In the event this is not done within seven days any such use of the street shall constitute a trespass and a violation of Ordinances of the City of Birmingham relative to encroachments upon public highways.

2. Ordinance No. 208 being and Ordinance amending the Building Code and all Ordinances or pags of Ordinances in conflict herewith are hereby repealed.

This Ordinance shall be effective January 1st, 1949, and shall be published following the passage hereof.

Passed and passed by the Commission of the City of Birmingham this 20th day of December, A.D. 1948.

OF YOUR FURNACE'S OR STOKER'S AILMENTS

IF you have reason to believe that your heating plant is not operating at top efficiency—if it produces too much smoke, not enough heat or shows any other deficiency, call your local coal retailer member of Coal Heating Service of Greater Detroit. He helps to maintain a staff of qualified combustion engineers who will expertly analyze your equipment, fuel and firing methods and make recommendations which will quickly correct the condition. There is no charge; in the interests of better home heating, this is—
