Are you and your family protected against rising hospital costs?

Chances are 1 in 4 you or a member of your family will have to go to a hospital this coming year!

The cost of hospital care, like everything else, has gone up. Think of the bills you pay at home—most of them larger today than ever. Virtually every item of expense in a home—food, supplies, maintenance and wages—is duplicated a hundred-fold in a hospital. To go to the hospital today costs far more than it used to—over \$5, more in typical cases since 1941.

BLUE CROSS—Michigan's most widely used health plans... best possible protection at the lowest possible cost. 1,500,000 people in Michigan are now protected by the Blue Cross Plans so that they will not be faced with the creatastrophic cost of illness. Blue Cross provides the greatest possible protection at the lowest cost because it is a non-profit organization operated by Michigan's hospitals and doctors themselves.
