Mrs. Mildred Etling Buys Children's Shop

Mrs. Mildred Roberts Etling has purchased the "Little Folks Shop," which has been run by Mrs. Ethel M. Pollock for the past 15 years. Mrs. Etling came to Birmingham with a wide experience in retailing and children's wear, having been associated with the May Company in Ohio for several years. Previously to that she had had experience in children's educational fields.

She will continue the business under the same name, with Mrs. Pollock as a member of the staff. The most outstanding change which will be made will be the addition of a complete line of furniture for children.

Large Group Plans to Attend Annual YMCA Retreat

Young C. Smith, Chairman of the Birmingham Branch of the Detroit YMCA, revealed that upwards of 250 laymen will attend the 20th Annual Spring Retreat of the YMCA this coming Saturday at Christ Church, Cranbrook. The guest speaker is Dr. L. L. Brown, Jr., pastor of the First Baptist Church of Pittsburgh, Pa., who will speak both in the evening and afternoon sessions of the group. Dr. John Visser, minister of the Westminster Presbyterian Church in Detroit, will give the opening address.

Rev. William S. Hill of Christ Church will preside at the closing communion service which follows the evening address. The time of the retreat is from 5:30 to 9:00 p.m. with the afternoon sessions closing at 5:30.

All interested men are urged to attend.

Police Officer, Dog Demonstrate Rules for Safety

Troop No. 2 of sixth grade Girl Scouts at Adams School, who have been working on the new proficiency badge called "Dog and Cat Care," under the leadership of Mrs. Carl Meyer, became so interested in the training of dogs that they called on Officer Edison Storing of the Safety Division of the Detroit Police Department to give them further instruction.

Police Chief John P. Hackett arranged with the Detroit Police Department for Officer Storing to bring his famous Doberman Pinscher, "Safety Girl of Detroit," to Adams School for a demonstration, and it was decided to make the occasion an all-school assembly.

Every day adds greater proof... THIS IS THE WAY TO HEAT YOUR HOME

READ THE NEWSPAPER HEADLINES. Listen to the radio commentators. Check the statements of Government officials. Think back to your own experience in two world wars, countless "emergencies," repeated shortages. Best of all — look at your own home thermometer, and at your fuel bills.

How much more proof do you need that plentiful COAL, burned in properly maintained modern coal stokers and furnaces, is still the best known way to heat your home?

IF YOU NOW USE COAL

Remember that you are wasting part of coal's tremendous heat-production if your heating equipment is worn out, outmoded, unfit to do its job. Modern coal heating units—automatic bin-fed or hopper-fed stokers, automatic controls for hand-fired furnaces, the new improved furnaces themselves—are the most efficient, economical and trouble-free in history. There are countless types to choose from, in abundant supply, and you can have them installed in a few hours without even interrupting your heat.

If you are due for a heating-plant replacement or modernization, why put it off any longer? Why not have the advantages of efficient, fuel-saving new equipment right away—this winter, as well as during the winters to come? Your local coal heating equipment dealer, will help you choose wisely the type of unit best suited to your needs; your new stoker, furnace or automatic controls can be installed promptly.

IF YOU DO NOT NOW USE COAL

Consider whether your present fuel gives you the all-round satisfaction enjoyed by your neighbor who burns coal. Consider whether the few extra square feet needed for coal storage, the mere five or ten minutes daily needed for servicing modern automatic coal-burning

equipment, is too great a price to pay for the matchless dependability, economy and comfort of uninterrupted coal heat.

If you are not acquainted with the great advances made over the past decade in coal's cleanliness and convenience, through modern processing, delivery and combustion techniques, your local coal retailer will be glad to bring you up to date. He will also be glad to give you—courteously and without obligation—any information that interests you relative to conversion to coal and coal equipment. His counsel will be expert and dependable—for either he handles coal heating equipment himself or cooperates closely with your local coal heating equipment retailer.

Another reason for installation of coal heating equipment is Coal Heating Service's maintenance of 24 hour emergency service for furnaces and stokers. Call your local coal merchant first—if he has no facilities, call the night, Sunday and holiday number CHERRY 4331.
