

Some MOTHERS DO

A little boy, who was told by his Sunday School teacher that it was God who made people good, replied: "Yes, I know; but mothers help a lot."

Some mothers do. Christian parents recognize their children as trusts from God. They know that some day they will have to give an account. They know the Scriptural command: "Bring up your children in the nurture and admonition of the Lord." And so they take the responsibilities of parenthood seriously. They speak to their children about the things of God. They teach them Bible stories, table prayers, and bedtime prayers. They take them to Sunday School. They sit with them in Church.

Yes, "mothers help a lot." Fortunate, indeed, is the child whose mother has come to God through Christ—and who has determined to bring her children with her.

This message is brought to the attention of this community as a public service by the members of the Redemptor Lutheran Church, 1809 West Maple Avenue.

First Methodist Choir Festival Sunday, May 9

The senior, youth and junior choirs of the First Methodist Church will present a concert of sacred and secular music for the public and friends of First Church on Sunday evening, May 9, at 8:30 p.m. Each of the choirs will sing two anthems, then combine to do the Ringwald arrangements of "Son of My Soul" and the "Battle Hymn of the Republic." Victor Peck will be soloist in the last two numbers.

Guest soloist for the evening will be Marvin E. Welch, Jr., of the Woodward, Congregational Church, Detroit, who will sing three tenor solos. Mrs. James Pheasant, soprano, will be heard in two numbers: "The Swan" by Grieg and "Vespers" by Milne. In all, 60 singers will take part.

The public is invited to attend.

"OTTO HAZARD"

Crowd four in the front of the old "Hazard" will send the news to pop.

RADIATORS NEED ATTENTION IN THE SPRING

It's Time to Do These Jobs

- 1—Drain out the anti-freeze.
- 2—Clean out the RUST and SCUM with DuPont Cooling System Cleanser.
- 3—Insure against leaks by using DuPont Cooling System SEALER.
- 4—Keep the water free from rust. Put in DuPont Acid and Rust INHIBITOR.

Come in today. Don't put it off until overheating causes serious damage to your motor.

Looked at and looked up to

When better automobiles are built **BUICK** will build them

Looked up to for what's newest in engineering advances.

If your standards call for a real performer — and for quality a cut above the ordinarily good — specify ROADMASTER when you see your dealer (with or without a car to trade) about getting an order in.

This is the one, of course, that you spot at a glance.

This is the one that sends a string of facts racing through your mind — if you know automobiles — the instant you see the name ROADMASTER spelled out on its fender.

Up to one hundred and fifty Fireball horsepower. Eighteen feet big — and spring-coil lively.

Gorgeously finished. Coil-spring cradled on all four wheels. Shod with oversize tires that take extra low pressures for added comfort.

Convenient too — with push-button controls not only for the top, but for door windows and the front-seat adjustment as well.

This, too, is the only passenger car in this country where the power plant does what gears used to do.

Here's the one place you'll find Dynaflo Drive,* in which liquid replaces not only the clutch and manually

operated low, second and high, but mechanical gear-changers as well.

In short — here's liquid ease and smoothness in delightful new degree, through a sort of "magic muscle" that lets you forget about gear-changing practically entirely.

No wonder, then, this car is looked up to.

Looked up to for impressive appearance — looked up to for superlative ability.

BUICK alone has all these features

- * DYNAFLOW DRIVE (Patented, Buick Motor Corp.)
- TAPER-THRU STYLING (Over and Underneath)
- RIGID TORQUE-TUBE * ROAD-RITE BALANCE
- DIUOMATIC SPARK ADVANCE * SAFETY-RIDE RIMS
- QUADRIFLEX COIL SPRINGING * VIBRA-SHIELDED RIDE
- FLEX-FIT OIL RINGS * HI-POISED FIREBALL POWER
- SOUND-SORBER TOP LINING (Over and Underneath)
- TEN SMART MODELS * BODY BY FISHER

WHAT'S DIFFERENT ABOUT DYNAFLOW DRIVE?

To an efficient new pump (left above), Buick engineers have added a free turbine (right) and an ingenious new supercharging assembly (in hand) which produces torque-boosting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

**Optional at extra cost on Roadmaster models only.*

MANAGEMENT IN THE MAKING

There's only one way to the top in the telephone company. That's through experience. And experience, in the telephone business, means learning to give subscribers constantly improving service.

"Up from the ranks" are familiar words around Michigan Bell. Telephone employees know that promotions are made from within the business, that the management and the employees of the company are the same people at different stages of their telephone careers. When opportunities for advancement arise, employees who have shown the necessary ability and qualities of leadership are the ones selected.

This kind of opportunity means much to you. For the skill and experience of telephone people, working together as a team, are major factors in providing good service at low cost.
