Nov. 15 Deadline on Overseas Mail, Post Office Says

With the Christmas season so near it is again time to consider the postal rules for mailing packages overseas. Bernard Fowler, local acting postmaster, said the closing date for overseas mailing has been set at Nov. 15. Even this final date cannot guarantee delivery before Christmas. An unusually large number of relief packages are being sent to friends and relatives in Europe, so that delivery is even slower than before the war years, he pointed out.

Persons having an APO number may be sent packages weighing as much as 70 pounds, and may be sent anything which is not barred from mails in this country. These rules are not subject to customs duties, but the receiver cannot be sent articles which are intended for a foreign party. The gift must be for himself personally.

No Cigarettes to Germany When the recipient does not have an APO number, the weight is limited to 22 pounds, and the contents of these packages are subject to customs' duties, such as on the regular market.

Hoss Honey

THE CHEMIST'S WAY OF MAKING COFFEE. EXTRACTION Instead of Infusion

The ordinary coffee-maker, having all the water added to one measure of coffee, makes only an "infusion." The distinctive feature of Hoss Honey is that the water is added gradually and evenly, resulting in a more concentrated and flavorful coffee.
