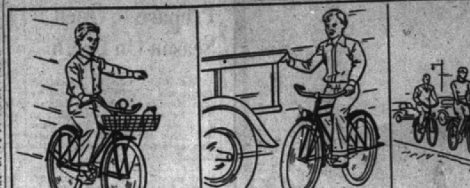
Do's and Don'ts for Bicycle Riders



DO use arm signals to warn those behind that you intend to slow down, stop or turn. Bicyclists must follow rules of road just like motorists if 1947 bike death toll of 550 is to be cut.

DON'T hitch to moving vehicles of any kind. This is one of the most dangerous bike stunts, takes many lives and brings countless injuries. You are in danger from every direction.

DO ride single file on the extreme right side of the road. Riding abreast or weaving in and out of traffic slows vehicles, confuses motorists and boosts chance of accident.

DON'T carry passengers on the crossbar, handlebar or fender. Never break this rule, even for the best girl friend. Extras make bike hard to handle, is one of chief crack-up causes.

DO have a dependable headlight on front and clean reflector on rear for night riding. Risk goes up as sun goes down, so smart riders will have bike in garage by nightfall to be safe.

DON'T ride bike on sidewalk when there are pedestrians or playing children. Dismount and walk your bicycle around them.

To Detroit Businessmen

If your business is located in Detroit, we invite your use of our printing services.

For your convenience we have a Detroit Sales Office at Cass and Milwaukee (across from the General Motors building).

Two experienced and co-operative salesmen man this office. The phone number is Madison 2629.

We would appreciate an opportunity to explain our facilities and quality of work—from 1 color to 4 color process.

We have several hundred Detroit customers, many of whom live in Birmingham. Why don't you, too, enjoy the convenience, economy and the neighborly personal interest which comes with buying from your "hometown printer"?
