## Step out with Brand-New Fireball Power in your old Buick

THIS is a brand-new Buick engine. straight from the same assembly line where the engines in 1948 Buick cars

If you'd like to boss it around-mister, that's easy, if you have any Buick built since 1937.

All we need to do is take out your old engine-and put this one in.

Then you can feel the thrill of a brandnew Fireball engine. You can enjoy all the pep, power and performance that you'd get if you had a 1948 car.

It's spick and span, from head to pan, with all the features that make today's Buick engine the pacesetter of the power parade.

And it can be yours in less than two days. Look at the list of what you get

- the most complete power package ever. There's a brand-new ignition system - brand-new clutch, pistons, pins, rings, valves - even the water pump.

We can make this offer because engine output has outstripped-new-car production at the factory. The cost? Much less than you think, although it varies a bit from model to model.

Come in today for detailed figures on bringing your old Buick right up to
