Cet The Truth!

"Remember there are two sides every question Get both sides, truthful."

Be truthful."

A good alogan...not just for a
newspaper—for people, too. Because there'll always be two sides
to every question: the side of those
who vote one way, and those who
rote another—the side of these
who enjoy a temperate heverage

wee, and of those who sween by nothing bat cider.
And from where I sli, one yeave got both sides—and faced them truthfally, you realize that these differences of opinion are a precious part of what we call Democracy—the right of the individual to vote as he believes, to speak his mind, to choose his own beverage of innodration, whether here or dider.
